GENERAL INFORMATION

A sch of the univ. in facs. of arts and laws

As a result of the recommendations of the Reay Cttee in 1908, the sch. was establd. by royal charter in 1916 as the 'School of Oriental Studies, London Institution', in Finsbury Circus; it was granted the status of a sch. of the univ. and was later allocated space for a permanent (not yet fully completed) bldg on the Bloomsbury site of the univ. In 1938, among other amendments to the charter, the title of the sch. was changed to 'School of Oriental and African Studies'. During the second world war a large number of intensive courses were given for service personnel, esp. in Chinese, Japanese, Burmese, Arabic, Turkish, Persian and Urdu, and much translation work was done for the various ministries as well as censorship duties. Largely as a result of the sch's initiative an inter-deptl. commission was set up under the Earl of Scarbrough's chairmanship to report on the provision for teaching and res. at univ. level in Oriental, Slavonic, E European and African studies The commission recommended * a substantial expansion of existing facilities, and from 1947 large grants for Oriental and African studies have been made by the U.G C. In accordance with the commission's recommendation that the whole field of Oriental and African studies should be developed in London, as against a more restricted devel. in other univs, the sch. devoted its energies in the first post-war quinquennium to building up strong, coherent academic depts., in which a proper balance is sought as between linguistic and cultural studies and the classical and mod aspects of those studies. During the period 1952–62 expansion continued steadily, though at a slower rate, and the staff was strengthened by numerous new appts

In 1960, a sub-cttee of the U.G C, under Sir William Hayter's chairmanship, reviewed developments in univs. in Oriental, Slavonic, E European and African studies since the Scarbrough report In its report,§ published in 1961, the Hayter cttee. recommended further develop on a substantial scale, particularly in mod historical, social and economic studies, and proposed measures designed to increase the number of students in these fields of study. The recommendations are to be implemented during the quinquennia 1962–67 and 1967–72

Income (1960–61) £541,874 (principal sources. govt. grants, 86 6 per cent, contributions from official, foundation and private sources, 8 per cent; fees, 3 6 per cent; endowments, 1 8 per cent).

Library. Nearly 250,000 printed books and pamphlets, and 1500 MSS, incl. approx. 16,000 books in the library of Sir Reginald Johnston.

Percival David Foundation of Chinese Art, 53 Gordon Square, London, W C.1 (tel.. Euston 3909), attached to and administered by the sch., comprises collection of Chinese ceramics and associated library presented to univ. by Sir Percival David in 1950, to which was added in 1952 a large collection of Chinese monochrome porcelains given by the Hon. Mountstuart W. Elphinstone. Its object is promotion and teaching of art and culture of China and surrounding region

GENERAL INFORMATION

The federation was establd. by the senate in 1945 for the further devel of postgrad med. educn. in London It was incorporated by royal charter in *March 1947, and admitted as a sch.* of the univ. in Dec 1947. The purpose of the federation is to provide organized and correlated facilities for postgrad. teaching and res. for qualified med. and dent. practitioners from the U.K. and other countries in and outside the Commonwealth, and to co-operate with univs., med schs., the royal colls and other bodies in their provisions for postgrad med. educn The federation provides: (i) trg for prospective specialists, supplementing the work of the undergrad. med and dent. schs ; (ii) advanced revision for practising specialists ; *(iii)* instruct. for med and dent practitioners who, though not specialists, desire more detailed knowledge of any branch of

med or dent.; (iv) continuing educn. of general practitioners.

The federation comprises at present: *federated institutes*—Postgrad. Med. Sch. of Lond; Inst of Basic Med Scis., Inst of Cancer Res. Royal Cancer Hosp, Inst. of Cardiol; Inst. of Child Health, Inst of Dent Surg., Inst. of Dermatol., Inst of Dis of the Chest; Inst of Laryngol. & Otol; Inst of Neurol (Queen Square); Inst. of Obstet & Gynæcol.; Inst. of Ophthalmol.; Inst. of Orthopæd; Inst. of Psychiatry, Inst of Urol

Postgraduate educn at the insts and the hosps. associated with them includes full-time and pt.-time courses of advanced instrucn., clin clerkships, jr. and sr. resident hosp. appts and opportunities for res. Provision is made for candidates for the MD, MS, MDS and PhD degrees, and courses are held for the academic postgrad dipls in clin pathol. and psychol. med of the univ. In addn most insts hold conferences and symposia for consultants.

The federation organizes short courses for gen med. and dent practitioners and med. officers of local authorities at hosps. in the 4 London metropolitan regions and the Wessex region, these incl. a number of courses consisting of *half-day sessions*, at undergrad. and postgrad. teaching hosps The admin of the federation is carried out by the central office, which maintains a bureau of information on postgrad. med. educn in the U.K., and arranges annually a series of lectures on 'the scientific basis of med.'. Three lectures on 'the scientific basis of dent' will again be held in 1963 These are designed for res. workers and specialists in trg., and are given by well-known experts from centres throughout the country

The federation awards a limited number of travelling fellowships annually to medically or dentally qualified men and women who are holding appts at undergrad. or postgrad teaching hosps or med. schs of the Univ of London. *See also* p 910

Following the institution of the national health service in July 1948, the federation appointed to the staff of the central office a regional adviser for postgrad med. educn in each of the 4 metropolitan regions to carry out the policy of the univ. and the federation in arranging postgrad educn for the practitioners, both specialist and gen, in the region The S W metropolitan region was divided into 2 in 1959, the more distant part being separated from the S W. region and named the Wessex region. In Oct 1956 a regional adviser in postgrad dent educn. was apptd. The regional advisers are members of the admin staff of the central office (*see above*)

GENERAL INFORMATION

Owens Coll., named after a Manchester merchant who bequeathed £96,000 for its foundation, was opened in 1851. The Manchester Sch. of Med. was united with it in 1872. The charter of 1880 by which the Victoria Univ was founded established a federal constitution and made Owens a constituent coll. of the univ. Subsequently Univ Coll., Liverpool, and Yorkshire Coll., Leeds, were admitted as constituent colls. A new charter was issued on July 15, 1903, reconstituting the univ under the name of the Victoria Univ of Manchester and freeing it from liability to admit or remain in assocn with any coll. other than Owens, and on June 24, 1904, the act for the incorporation of Owens Coll. with the univ. was passed. In 1905, on the establishment of the fac. of technol., the work of univ. standard at the Municipal Sch. (later Coll.) of Technol. was included in the univ. Under a charter granted in 1955 the Coll. of Technol. was establd. in 1956 as the Manchester Coll of Sci. & Technol.

CONSTITUTION. The governing body of the univ. is the court of governors, whose exec. cttee. is the council; the senate, which consists of all the profs. of the univ., regulates academic matters. Facs. are controlled by their own bds. within the authority granted by the charter. The chancellor presides over the court, the council elects its own chairman, and the vice-chancellor presides over the senate.

Under the charter of 1955 the Coll of Sci. and Technol operates under a court and council. Academic matters other than those appropriate to the bd. of the fac. of technol. are regulated by an academic bd.

GENERAL INFORMATION

The univ. originated in the adult sch. estabd. in 1798, the Mechanics' Inst. and the People's Coll., developments leading to the univ. extension lectures inaugurated in Nottingham in 1873—the first in the country—by the Univ of Cambridge. An anon. gift of £10,000 in 1875 encouraged the corporation of Nottingham to erect a bldg., maintain it, and supply instrucn. The bldg., in Shakespeare St., was opened in 1881 as the Univ. Coll., Nottingham, incorporated by royal charter in 1903. There were at first 4 professorships (lit., phys., chem., nat. sci.).

A large estate some 3 miles W. of Nottingham, giving room for expansion, and new bldgs. completed in 1928, were provided by the first Lord Trent, after whom they are now named. In 1938 a supplemental charter reconstituted the governing body, providing for much wider representation. The coll. was relieved in 1945 of responsibility for evg. and pt.-time educn in the area ; in 1947 the Midland Agric. Coll. at Sutton Bonington became the coll. sch. of agric., and an inst. of educn. was founded. Since 1948, when the univ. charter was granted, 175 acres have been purchased, bringing the site to a total of 295 acres ; new bldgs., incl. 4 halls, a biol. bldg., the Portland bldg. containing refectories and students' amenities, a chem. bldg., part of the appl. sci. bldg. and the educn. & soc. sci. bldg. have been erected, and 23 new professorships have been estabd.

Nottingham (pop. 312,000) is a univ. and industrial city situated on the N. side of the river Trent, about 124 miles N.N W. from London.

CONSTITUTION. The supreme governing body of the univ. is the court, which includes the officers, life members, reps. apptd. by local authorities, reps. of churches, members of parliament of the divisions of the city of Nottingham and certain E. Midland constituencies, *ex-officio* members, reps of staff, students and convocation, of other instns. and socs., incl. schs. and colls., and other persons, 3 of whom are nominated by the lord president of the privy council. The chairman of court is the chancellor Subject to control by the court, the council is the executive of the univ., responsible for the conduct of all the affairs of the univ. The council consists of the officers, 8 reps. apptd. by court, reps. of local authorities in the E. Midlands area, 7 senate members, 3 reps. apptd. annually by council and 1 rep of convocation. It controls the management and admin of all revenue and property through the bursar and his dept. Subject to control by the council, the senate, which is presided over by the vice-chancellor, regulates academic matters, Its other members are the deans, the profs., the dir of the inst. of educn., indep hds. of depts., the librarian, 6 elected members of the non-professorial staff and other reps. of fac. bds. as approved by court. To each

fac. bd. are assigned specific powers, incl that of expressing its opinion to senate on any matter relating to the fac

UNIVERSITY PRECINCT. The univ. site is a park bounded by Univ. Boulevard, Clifton Boulevard, Derby Rd., and Beeston Lane. From a N.-S ridge across the centre, the land falls to level areas on the E. & W. edges of the park. It is planned that the bldgs. of general use, incl. library and senate house, shall be grouped with the non-sci. facs. on the hill in the centre of the site The pure and appl sci. facs will be on the level area to the E Halls of residence, each with an associated group of tutors' houses, will stand on the central ridge itself and along the N. & W. perimeters. By concentrating the teaching bldgs. in groups, and by keeping the halls mainly on the edges of the site, it will be possible to preserve the park-like nature of the univ. precinct, with belts of tree-covered lawns and meadows lying between and around the groups of bldgs.

The sch. of agric., comprising the fac. of agric. & hort., is located 10 miles from the univ., between Nottingham, Derby and Loughborough. *Address*. Univ. of Nottingham School of Agriculture, Sutton Bonington, Loughborough (tel. : Kegworth 386).

GENERAL INFORMATION

[*See below*, p. 1276, under 'Publications', for pamphlets giving information about admission, residence, entrance scholps., expenses, exams., degrees, research, etc.]

There is evidence that there existed in Oxford in the early 12th cent schs. which by the end of that cent. had developed into a univ., a devel. perhaps helped by the fact that about the yr. 1167 Engl students were prevented from attending the Univ. of Paris. By about 1200 there were a no. of masters lecturing on various subjs, incl the recently recovered works of Aristotle, and in 1214 the univ. received its first recorded recognition as a body in a grant by the papal legate of certain privileges incl reduction of the rents it paid In the 13th cent the coming of the friars, notably the dominicans and franciscans, strengthened the univ., especially in the theol fac. In the same cent. the 3 first colls (University, Balliol and Merton) were endowed, and 12 more were founded between 1300 and 1555. During the middle ages, however, the colls. were more or less reserved for grad. fellows (as All Souls still is), and the great majority of undergrads and grads lived in a large no. of academic 'halls', or hostels, scattered about the town. The univ. at first had no bldgs of its own, but made use of hired lecture rooms or of churches, especially St. Mary's church, until, in the 15th cent., the div. sch. was built. From the 13th cent. onwards the position of the univ. was strengthened by a succession of charters from the crown, but during the Reformation it suffered from the suppression

of the monastic colls. In 1571 the univ. was incorporated by act of parliament, and much reorgn. followed; in particular, the undergrads. now came to be included in the colls. Professorships were first endowed in the early 16th cent., and increased notably in the early 17th cent. The important code of statutes introduced in 1636 by Archbishop Laud, chancellor of the univ, remained in force, with certain modifications, for about 150 yrs. During the civil war the univ. supported the king, who made Oxford his headquarters, and parliament met there The later 17th cent. saw an increase of sci studies at Oxford; and towards the end of the 18th cent. the standard of studies rose as written exams gradually took the place of oral exams. The constitution was revised, as a result of the work of royal commissions, in 1854 and in 1877. coll statutes were re-made and studies reorganized, and the professoriate was increased and re-endowed. *In 1871 religious tests were abolished*, and the MA degree was thrown open to non-conformists; and since 1920 women have been admitted to membership of the univ under the same conditions as men. As a result of the work of a further royal commission, the existing constitutional arrangements were adapted in 1923 to meet the needs of the times, one result being that the univ. from then onward received an annual Treasury grant.

CONSTITUTION. The *central policy-forming* and exec. body in the univ. is the *hebdomadal council*, comprising the chancellor (a non-resident member, elected for life by convocation), the vice-chancellor (a coll. head nominated by the chancellor annually, usually holding office for 2 yrs., and *de facto* chairman of the hebdomadal council), the immediate ex-vice-chancellor (for 1 yr. after the expiry of his term of office) or one of the pro-vice-chancellors who has not held the office of vice-chancellor, the 2 proctors (disciplinary *officers, elected annually by men's colls. in rotation*), the assessor (elected annually by other socs. in rotation) and 18 members elected by congregation (*see below*).

Other considerable powers and responsibilities are held by the *general board of the facs.*, which comprises the vice-chancellor, the proctors, the rep. of the women's colls. and reps. of the hebdomadal council, the curators of the univ. chest, and the several facs —theol., law, med., literæ humaniores, mod. hist, Engl lang & lit., mediæv & mod. langs., oriental studies, phys scis (incl. maths.), biol. scis., soc studies, anthropol. & geog, music, agric. & forestry, and psychol. studies—and which exercises a gen. supervision over the teaching (other than coll teaching), res. and exams. of the univ (exec. orgn being in the hands of the several bds. of the facs., the bd. in each case being composed in pt. of *ex-officio* and in pt. of elected members); and by the *curators of the univ. chest*, who are responsible for the detailed financial admin. of the univ. and for the preparation of accounts and estimates.

The hebdomadal council submits proposals for the amendment of the statutes (which govern the working of the univ.), and measures for the conduct of business beyond the scope of its own authority, to the *congregation of the univ.*, which can adopt, reject, or amend them; congregation comprises mainly the teaching and sr. admin. staff of the univ. Legislation carried by the vote of less than two-thirds of the members of congregation present and voting is referred to, and can be carried or postponed or rejected by *convocation*, a larger body comprising all holders of the MA and certain sr. degrees who have their names on the univ books; convocation also confers hon degrees, and authorizes the affixing of the univ seal when necessary.

The COLLEGES are corporate bodies distinct from the univ.; they manage their own property, elect their own officers, have their own bldgs and facilities (usually incl. residential accomm., dining-hall, chapel, library, sr and jr. common rooms, and playing fields) and control the selection and admission of their own undergrads.; and the proctors have no power within their walls They are, however, subject to the univ statutes in certain connexions, notably presentation and audit of accounts, contributions for univ. purposes and elections to professorial fellowships: and all persons who are members of colls are also members of the univ. and so come under the univ.'s rules. Teaching is carried out partly by way of lectures and classes held by univ profs, readers, lectrs. and demrs., partly by way of individual tuition given by coll. tutors and lectrs. (most of whom hold, in addition to their coll posts, pt-time univ. lectureships and are referred to on pp. 1236-1249 as Common University Fund lectrs.).

INCOME. The income of the univ. (not incl. the income of the separate colls) for the year 1960–61 was £4,508,528, made up as follows: *endowments*, £430,860 (9·6 per cent); *parliamentary grants*, £3,053,678 (67·8 per cent), fees, £293,844 (6·5 per cent.); payments for res., £577,127 (12·8 per cent.); contributions from colls, £77,461 (1·7 per cent.), other income, £75,558 (1·6 per cent).

FACULTIES AND DEANS. For facs. *see under 'Constitution', above* There are no deans of facs.; enquiries about admission should be addressed to the head clerk, Univ. Registry, Oxford.

UNIVERSITY BUILDINGS. Most of the individual colls. and halls of the univ. are centrally situated, together with the major bldgs. serving the univ. as a whole (*e.g.* Bodleian libr., Sheldonian theatre, Ashmolean museum, exam schools); sci. depts. and labs. are mostly congregated in the sci. area, which is adjacent to the univ. parks and N. of central Oxford

Bldgs. completed in recent yrs. incl. provision for agric., inorg. & org. chem, human anat., metall., microbiol., and pharmacol., an extension of the Ashmolean Museum, a gallery for casts, an

oriental inst., a hist fac. libr., and an extension of the dept of educn

Devels. taking place at present or in the near future incl. bldgs. for the depts. of engin , biochem , phys., geol., an Engl. fac. libr , a law libr , an inst. of stats., and a spectators' stand at the athletics ground.

LIBRARIES. The principal libr of the univ is the Bodleian libr (founded in 1602 by Sir Thomas Bodley), with its dependent librs (Radcliffe sci libr., Rhodes House libr., which deals with the hist of the British Commonwealth and the U.S.A., and Indian Inst libr). It is entitled, under the Copyright Act, 1911, to a copy of every book publd. in Gt. Britain & Ireland, and now contains about 2,297,000 books and 50,000 MSS Persons other than members of the univ may be allowed to read in the libr. in certain circumstances at the discretion of the librarian. The *Visitors' Guide* (on sale at the libr) gives a short hist. The chief books relating to it are: Macray, W D , *Annals of the Bodleian Library* (Clar Press, 1890, 35s.); Craster, Sir H E. E., *History of the Bodleian Library*, 1845–1945 (Clar. Pres , 1952, 42s.); *The Bodleian Library Record* (3s 6d per no., obtainable from the librarian)

Two other important librs are those of the Taylor Instn. (about 170,000 books on mod langs. & lit , incl. the chief philological lit and historical works in the principal European langs.) and the Ashmolean museum (about 80,000 books on classics, anc. hist., archæol., art and near eastern studies). In addition, there are some 46 dept. and fac. librs. containing altogether about 377,000 books of sp. interest to their particular students.

Apart from these univ librs., each coll. has its own libr., use of which is normally restricted to members of the coll Two libis. at All Souls Coll. (Codrington libr. of law and mod hist. and Brand libr. of pol econ & sci) are, however, open to any recommended member of the univ.

GENERAL INFORMATION

A univ. extension coll was opened at Reading in 1892, it was based upon the local Oxford Univ extension centre and the local schs. of sci. and art, and derived its first impetus largely from Christ Church, Oxford In 1902 it established a claim to a state grant as a univ coll In 1904 and 1905 it received endowments of land and money from the Palmer family Wantage Hall, endowed by Lady Wantage, was built in 1908 as a residence for men students, the declared policy of the council being to make residence in a hall the rule and not the exception. An endowment fund of £200,000 was subscribed in 1911 by the benefactors already mentioned. The univ. was established by royal charter on March 17, 1926.

Various developments call for special notice. One is the establishment, in connexion with the coll. and univ., of the Natnl Inst for Res. in Dairying Another is the bldg. and endowment of the library, the costs of which were defrayed by Mr. Alfred Palmer and members of his family; the bldg. constitutes a memorial to the late Rt. Hon. George William Palmer, one of the chief benefactors of the coll Residential accomm has been increased, and the univ now has 7 halls of residence, 3 for men and 4 for women Further additions are being planned.

CONSTITUTION. The supreme governing body of the univ. is the court, presided over by the chancellor The executive body is the council, which is composed of academic and lay members, and elects its own chairman. The senate, which consists of all profs of the univ and 3 elected members of the academic staff, regulates academic matters, the vice-chancellor is chairman. Facs. are controlled by their own bds., and schs. by their own cttees., subj. to the authority of senate and council

GENERAL INFORMATION

The Sheffield Sch. of Med., founded 1828, Firth Coll., establd. as a coll of arts and sci in 1879, and the Sheffield Technical Sch, opened in 1886, were united in 1897 to form Univ. Coll., Sheffield. In 1905 the coll. became, by royal charter, the Univ of Sheffield.

Originally dependent almost entirely on local contributions, the univ developed slowly in its early yrs, with the facs. of engin. and metall in particular benefiting from their close connexion with local industry, but with a balance of student numbers largely in favour of the arts and pure scis. *In recent yrs. Treasury grants have made* possible all-round expansion, and since the end of the war 14 new depts have been establd., 29 *chairs created, 5 major bldgs and considerable ex*tensions completed, and extensive sites acquired. Particular attention has been paid to facilities for postgrad. study in the various branches of engin and metallurgy, in 2 of which—glass and refractories technol.—Sheffield has the only univ teaching depts. in the country.

CONSTITUTION. The court, the governing body of the univ, consists of some 605 reps. of educnl. and financial interests, who receive an annual report and statement of accounts and sanction changes in ordinances Executive control rests with the council, composed of the officers of the univ. and reps apptd. by court, senate, the non-*professional staff*, local authorities and hosps., and convocation. The senate, comprising the profs. of the univ. and certain other academic *persons, controls all academic affairs and reports* to the council on academic matters requiring action by the council. Seven facs. (*see below*), each under its own bd, are *responsible to the* senate for the teaching in their various depts The dept. of extra-mural studies and inst. of educn report direct to the senate and the council through their bds.

The chancellor is the chief officer of the univ. The vice-chancellor is the principal academic officer, and is, *ex officio*, chairman of senate

INCOME (1960–61) Endowments, £67,404; donations and subscriptions, £52,050; grants from local authorities, £39,596; parliamentary grants, £1,418,743; students' fees, £185,277; contributions for services rendered, £221,183; other income, £2936.

FACULTIES AND DEANS. *Arts* (incl. archit.), Prof. E Laughton (Latin); *econ. & soc studies*, C. A. Whittington-Smith (accountancy); *engin.* (depts. of civ., electr. and mech engin., appl. mechs., mining, fuel technol. & chem. engin., glass technol.), Prof. F. S. Atkinson (mining); *law*, Prof O R Marshall; *med* (incl dental studies), Dr. J G. McCrie, *metall.*, Prof A G. Quarrell; *pure sci.*, Prof Q H Gibson (biochem.).

UNIVERSITY PRECINCT The teaching and res. bldgs of the facs. of arts, econ. & soc. studies, law, med. and pure sci., the sch of soc. studies, library, staff club house, students' union and admin offices are grouped in the Western Bank area, in close proximity to 4 of the teaching hosps. A short distance from this main group lies the St. George's Sq. block of engin. and metall depts, and on the other side of Western Bank, linked to it by new playing-fields, the bldgs. of the dept. of glass technol. Sites now being developed, both in the neighbourhood of these groups of bldgs. and in a pleasant residential suburb about a mile away, *in which the halls of residence for students are* situated, will result in compact univ. teaching and residential quarters

LIBRARY. Arts, econ. & soc studies, law, med, pure sci: 250,641 vols and pamphlets; appl sci 25,785 vols and pamphlets. Also sp. glass technol., inst of educn, and deptl collections

LABORATORIES, ETC. Equipment for advanced study and res. in all depts. GENERAL INFORMATION

The idea of a Univ. Coll. of Sussex was first discussed in 1911, when it was suggested that such a coll. should be establd. at Brighton and recognized as a constituent part of the Univ. of London. An appeal for funds was launched and about £2800 was collected, but on the outbreak of the first world war the proposal fell into abeyance. Little further action was taken until 1955, by which time national needs were pointing to the necessity for a considerable expansion of univ. educn. during the decade beginning 1961. In 1956, as the result of an approach by the Brighton Borough Council to the other local authorities in Sussex, a joint cttee. was formed to take steps to found a univ. coll. An approach was made to the Univ. Grants Cttee., which, on July 1, 1958, gave its formal approval to the establishment of the coll The joint cttee. was then reconstituted as a provisional coll. council, and the coll. obtained interim legal status when, in May 1959, it was registered under the Companies Act as a Limited Liability Company, the members of the council being the dirs. of the company. In Jan. 1961, a petition was presented to H.M. the Queen praying for a royal charter of incorporation as a univ. The charter was granted and came into force on Aug. 16, 1961. The univ opened in Oct. 1961, when the first students were admitted.

Brighton (pop. 162,757) is a holiday centre on the south coast of England, 50 miles S. of London.

CONSTITUTION. The univ. consists of a court, council and senate, and the usual univ. officers. Council is the governing body, powers of court being limited to election of chancellor, pro-chancellors, treasurer and some members of council. In order to guarantee satisfactory academic standards, there is also an academic advisory cttee. which will be an integral part of the univ.'s constitution for a limited period. This cttee consists of persons of high academic standing and has the duty of advising the council and senate on academic matters, incl the institution of degrees, the procedure for appointing members of staff and the conduct of exams.

INCOME. The 5 local educn. authorities in Sussex contribute between them an annual sum of about £40,000 towards the recurrent expenditure of the univ. The Univ Grants Cttee. meets the remaining essential recurrent expenditure. The Univ. Grants Cttee has also set aside £2 million to provide bldgs (other than student residences) for the univ. during the period 1960–63. A public appeal was launched at the end of 1960 to obtain funds primarily for student residences; the target was £500,000 and was reached within a yr.

DEANS There are no depts in the univ , which is organized into schs.—Engl. studies, European studies, phys. scis. and soc. studies. Each sch. is presided over by a dean: *Engl studies*, Prof. D. Daiches; *European studies*, Prof. R J. M. Wight (European hist.); *phys. scis.*, Prof. R. J. Blin-Stoyle (theoret. phys); *soc studies*, Prof. A. Briggs (hist.)

SITE AND BUILDINGS. Work on the first 2 bldgs. —Falmer House (the social and recreational centre), and the phys. bldg —commenced in Dec. 1960. These bldgs. should be completed by Oct 1962. 4 more bldgs.—chem., engin , arts and library—should be completed by Oct. 1964. Two student residences, each accommodating 100

students, are being erected and financed from the appeal fund; these should also be completed in 1964. All the bldgs will be erected on the univ. site of about 200 acres at Falmer, between Brighton and Lewes. Of this, 150 acres have been leased to the univ for 999 years by the Brighton Corp., and the remainder has been purchased.

LIBRARY. Over 30,000 vols

ADMISSION *See* Appendix III.

FIRST DEGREES. The univ has 2 facs., arts and sci. Arts studies leading to an hons. degree of BA (taking 3 yrs) are organized in 3 schools—English studies, European studies and soc studies—the intention being to ensure that the necessary specialization is accompanied by a desirable breadth of approach, through the co-operation of different subject specialists in a common degree course. BSc degree studies include pure maths, appl maths, phys and chem. A student taking a first hons degree in sci. will be required to study 3 of these subjs., together with some hist or philos. or sociol., for 3 yrs, a limited number of students will be able to specialize in one of the subjs for an extra yr. and obtain a second hons. degree. A course leading to a degree in engin. sci (without specialization) will be offered later, and biol. studies will be introduced in 1965

HIGHER DEGREES. Courses leading to degrees of master and doctor are available. The MA degree requires at least 1 yr. of study or res after the hons degree and the PhD or DPhil degree at least 2 yrs.' study or res after the hons degree.

FEES. Annual fees (incl. registration, tuition and exams., but not students' union sub): BA, £60, BSc, £75. Higher and res. degrees without lab. facilities, £60; with lab facilities, £75. Union sub (payable by all full-time students), £6 p.a

GENERAL INFORMATION

The earliest recorded petition for a Univ of York was made to James I in 1617 and was followed by a petition to parliament in 1652. In 1947 a deputation from the city of York was received by the Univ Grants Cttee, and a planning cttee was set up This was taken over by York Civic Trust in 1949 and became their academic devel. cttee. In the same yr. summer schools in hist res. and archit study were held. The Borthwick Inst. of Hist Res. and the Inst of Advanced Archit. Studies were both estabid. in 1953. The academic devel. cttee hived off from York Civic Trust in 1956 and became York Academic Trust In 1959 the trust made an informal approach to the Univ Grants Cttee. and, in Nov., York Univ Promotion Cttee., representing a wide range of local interests, was formed In Dec a formal approach was made to the Univ Grants Cttee and on April 19, 1960, the estabit of the univ. was officially approved The univ.'s academic planning bd, under chairmanship of Lord Robbins, was apptd in Sept. 1960. A public appeal for funds, primarily for the bldg of residential accomm, was initiated in May 1962, when the univ. published its development plan The plan covers the univ 's first 10 years, during which it is expected that the number of students will increase from 200 to 3000, of which at least half will be resident in colls.

York (pop 105,000) is an historical cathedral city of great architectural beauty and a busy commercial and admin centre

CONSTITUTION. A petition for a royal charter will be presented early in 1963 The charter as drafted provides for govt. by court, council, professorial bd and gen. academic bd, with the usual officers. The univ. will award its own degrees from the outset. During the early yrs. there will be an academic advisory cttee, consisting of persons of high academic standing, to guarantee maintenance of satisfactory academic standards.

COLLEGIATE SYSTEM The collegiate system will be in operation from 1965. Every student and every member of staff will be attached to one of the colls., which will each have about 300 undergrad members and will provide residential accomm. for at least half of the undergrads. and a number of academic staff and grad. students It is hoped that there will be built up round each coll a body of tradition and loyalties which will carry with it many of the soc. advantages of the older collegiate system without entailing its academic duplication and rigidity. Teaching will be organized centrally by the univ, and in arts subjs. will take place within the colls, rather than in separate blocks of lecture rooms

INCOME. Univ. Grants Cttee. have undertaken to provide recurrent grants from Oct. 1963 and have also allocated capital grants for 1962–65. The city of York and the 3 Ridings and other local authorities of Yorkshire have promised annual contributions of approx £35,000. A public appeal with a target of £2 million was launched in 1962.

SITE AND BUILDINGS The univ has an initial site of 184 acres at Heslington, within a mile of the city walls Two historic bldgs, Heslington Hall on the site, and the King's Manor in York, are being converted to provide lecture, seminar and tutorial rooms, dining-halls, library and common rooms during the first 2 yrs. The admin headquarters of the univ will be at Heslington Hall The 200 students to be admitted in 1963 will use Heslington Hall, and the King's Manor will also be available in 1964 Bldg on the site will begin in 1963, and 2 of the colls., together with the 1st sci. block and 6 deptl bldgs., will be completed by Oct. 1965 The devel. plan provides for the remainder of the accomm, which will incl a further 6 colls., 2 sci. blocks and 15 deptl. bldgs, together with a central library, assembly hall, sports centre, theatre and concert hall, to be completed in phases over the following 5 yrs. The Borthwick Inst of Hist Res and the Inst of Advanced Archit. Studies, both of which form pts. of the univ, are housed in historic bldgs in the centre of York. Micklegate House in York is also owned by the univ and, like the King's Manor, will probably be used as a grad. institute when the 1st new bldgs. have been completed

ADMISSION. *See* Appendix III.

FIRST DEGREES First degree courses—BA and BSc (3 yrs)—will comprise a major subj. and one or more cognate subsidiaries In certain circumstances, however, a degree can be obtained in one subj. only Range of subjs. will comprise arts, nat scis. and soc. studies, and a rigid division into facs. will be avoided Strong emphasis will be given to the tutorial system

It is proposed that students of proved ability should be granted a 4th yr. of tig leading to an MA

FEES. Sessl. fee, incl. (as appropriate) registration, tuition or supervision, exam., graduation, but not fees for games, clubs, etc.: BA, MA, PhD, each £60.

STUDENTS. 200 students will be admitted in Oct. 1963 in arts and soc. studies only, and a further 200 in 1964. From 1965, students in sci. will also be admitted

RESIDENCE. Until completion of the 1st colls. in 1965, students will live in lodgings, and the lodgings officer will give assistance in finding suitable accomm.

GENERAL INFORMATION

The univ. was founded by charter in 1893 This organized 3 univ colls already existing in Wales into a unified system for the purpose of degree exams As the result of an enquiry held by a royal commission in 1916–18, a supplemental charter was granted to the univ in 1920, which introduced many changes, the most important being the establt. of a 4th constituent coll at Swansea A further supplemental charter was granted in 1932 providing *inter alia* for the institution of the Welsh National Sch. of Medicine as a sch. of the univ. At the same time a change came about in the organization of theol teaching. Theol. had up to this point been taught only in associated theol. colls. The amendment permitted the establt. of schs of theol, which would combine the teaching resources of univ colls. and of theol. instns. in univ centres. Two schools have come into being, at Bangor and at Cardiff, but theol colls operating on their own still survive and continue to receive recognition (at Aberystwyth, Carmarthen, Swansea, *see above*).

Cardiff (pop 255,000) is the capital city of Wales

CONSTITUTION The supreme governing and legislative body of the univ. is the univ. court, an assembly consisting of reps. apptd by local authorities, by the constituent and other colls and by various instns. connected with educn and scholarship The univ council is the executive body of the univ, and the academic bd. advises the council and court on all academic matters

GRANT INCOME (1960–61) Treasury. £2,467,312.

FACULTIES. Facs of *arts* and *sci* exist in each of the constituent colls and operate within the colls Similarly the new facs. of *econ and soc. studies* (at Cardiff) and *appl. sci.* (technol.) (at Swansea) each operate in one coll The following facs do not exist separately in the colls but only as univ. bodies, functioning on a univ level—*archit*, *educn*, *law*, *music*, *rural sci* (consisting mainly of profs of agric and allied subjs), *technol*, *theol.* (consisting mainly of recognized teachers of theol), *med* (the senate of the Welsh Natnl Sch. of Med). The academic bd is constituted mainly of single reps coming from all the facs.

LIBRARIES. *See* entries for constituent colls and Welsh Natnl. Sch of Med, *below*

THE UNIV. SCHOOL OF EDUCATION (Univ. Registry, Cardiff; tel.. Cardiff 22656), which is an area trg organization, came into being in 1949 and superseded the univ bd for trg. colls. It is charged with the duty of surveying the general educnl needs of Wales and Monmouthshire in regard to the educn. and professional trg of teachers, and of co-ordinating developments and directing long-term policy, so as to formulate a comprehensive system for the trg of teachers in the area. The organization comprises the univ educn bd, the univ fac of educn. and the 4 collegiate facs. of educn at Aberystwyth, Bangor, Cardiff and Swansea. The school awards the teacher's cert. and the art teacher's dipl

GENERAL INFORMATION

The Univ. of Aberdeen derives its origin and endowments from 2 sep., and for a long time indep., foundations. One of these was the univ. founded by William Elphinstone, Bishop of Aberdeen, under the authority of a papal bull obtained in 1494–95 at the instance of King James IV; within which univ. was afterwards founded, in *1505, the Coll of St. Mary, subsequently called* King's Coll. From this royal patronage, it was held to stand in a specially close relation to the sovereign, and is accordingly styled in acts of the Scots parliament—'our sovereine lord his college and university' The other foundation was that of Marischal Coll. founded in 1593 by George Keith, fifth earl marischal, under a charter ratified by act of the Scots parliament. Both the above foundations were reconstituted in 1860 as 'The University of Aberdeen', which is incorporated under the Universities (Scotland) Act of 1889.

Aberdeen (pop 185,600) is a univ. town and holiday centre—principal industries: granite quarrying & working, inshore & deep-sea fishing, light & heavy engin., agric. and papermaking—situated on S.E part of coast of Aberdeenshire in N E of Scotland

univ. (*ex officio*) together with certain non-professorial members, the no. of which is controlled by ordinance. The general council consists of the chancellor, the members of the univ. court, profs and all grads. of the univ., as well as readers and lectrs of 1 yr's standing The five facs (arts, sci., div, law and med) consist of profs. assigned to them by ordinance, readers assigned by univ. court after consultation with senatus, other profs, readers and lectrs. apptd. for a certain period by senatus after consultation with or recommendation by the facs The chancellor is appointed for life by the general council, the rector is apptd for 3 yrs by the matriculated students of the univ., voting through procurators in four 'nations'; the vice-chancellor is appointed by the chancellor for the purpose, in the absence of the chancellor, of discharging his office in so far as regards the conferring of degrees

GENERAL INFORMATION

The Univ of Edinburgh was originally 'the Town's College', founded in 1583 by the town council of Edinburgh, under general powers granted by a charter of King James VI, dated April 14, 1582 From the first the coll. possessed the privilege of conferring degrees. This privilege was ratified by the 'act of confirmation', passed in 1621, which secured to the 'College of James VI' (as it had come to be called) all the rights, immunities and privileges enjoyed by the other univs. of Scotland Gradually, in acts of the general assembly, of the town council, and of parliament, the 'College of James VI' came to be styled 'the University of Edinburgh'; but it remained under the control and patronage of the town council until 1858, when, by the Universities (Scotland) Act, all the univs of Scotland received new and autonomous constitutions.

Royal (Dick) Sch. of Veterinary Studies, Summerhall, Edinburgh, 9 (tel : Newington 6801 , telegrams . Veter, Edinburgh). Founded 1823, became sch. of vet. studies within the univ., 1951 (*see* p. 1361)

The senatus academicus regulates teaching and discipline ; the general council is empowered to make representations to the court on all questions affecting the univ.'s prosperity. The chancellor, elected by the general council for life, is pres of the general council and nominates an assessor in the univ court The vice-chancellor is nominated by the chancellor. The principal, elected by the curators for life, is pres of senatus ; in the absence of the rector he presides at meetings of univ. court, and in the chancellor's and rector's absence, at statutory meetings of general council. The rector, elected by matriculated students for 3 yrs , is pres of univ. court, and appoints an assessor to it The court comprises rector, principal, lord provost of Edinburgh, assessor nominated by chancellor, by rector and by town council ; 4 assessors elected by senatus and 4 by general council. The senatus comprises principal, profs and certain readers and lectrs The general council consists of chancellor, members of court, profs. and grads. of univ., as well as readers and lectrs of at least 1 yr.'s standing.

GENERAL INFORMATION

The univ. was founded in 1451 by a Bull of Pope Nicholas V, on the applicn. of William Turnbull, bishop of Glasgow. It was establd as a *studium generale*, with the privileges of Bologna, and its charter provided for studies in theol, canon and civil law, arts and any other lawful fac.

The business of the univ. was carried on with varying fortunes till the Reformation, when its revenues were thrown into confusion It was given new life by Andrew Melville, who became principal in 1574. In 1577 it was reconstituted by the 'nova erectio', a charter of King James VI which was the foundation of the statutes by which the univ was governed until the Universities (Scotland) Act, 1858.

The 'old college' was situated in the High St for more than 4 centuries; the univ moved to its present site on Gilmorehill in 1870 Since the transference was made, a whole range of new bldgs. has come into being (*see* 'Univ. Precinct', *below*)

CONSTITUTION. By the Universities (Scotland) Act of 1858, as modified by the act of 1889, the univ. court, upon which senate and general council have representation, controls the finance, properties and general admin of the univ The senate superintends teaching and discipline: it consists of the principal (who presides) and the profs (*ex officio*) and readers and lectrs apptd. by the senate to a max. of one-fourth of the *ex-officio* members The general council consists of the chancellor, the members of the univ court and the profs. of the univ, all *ex officio*; grads of the univ. who have paid the registration fee; and (during their term of office) readers and lectrs. of more than 1 yr.'s standing The chancellor is elected for life by the general council The rector is elected by the matriculated students, is pres. of the univ. court, and holds office for 3 yrs The office of principal is in the patronage of the crown. The vice-chancellor is apptd. by the chancellor to discharge in his absence his function of conferring degrees. The office has usually been and now is held by the principal.

The original univ precinct, extending to about 24 acres, is bounded by Univ Avenue on the north, by Kelvingrove Park on the east and south and on the west by the Western Infirmary, and contains little possibility of further bldg devel

The adjacent devel area, extending to about 26 acres, is bounded by Univ Avenue on the south, by Bank St. on the east, by Gt. George St on the north and generally by the Lilybank Gdns area on the west. This area also contains few unoccupied sites immediately available for new bldgs. The univ owns about 8 acres and is acquiring individual houses as these come on the market. An amended plan has been approved for future univ devel. in the adjoining Hillhead area in which sites have been allocated for a number of important new bldgs. including a refectory and library.

For bldgs recently completed or approaching completion, *see* p. 1384

GENERAL INFORMATION

Founded in 1796 under the will of Prof John Anderson, Anderson's Coll was, in 1886, joined with the Coll of Science and Arts (1823), the first 'mechanics' instn', itself an offshoot of the original Anderson's Coll, and with the Atkinson Instn (1861) in the Glasgow and West of Scotland Technical Coll From 1912 the coll was known as the Royal Technical Coll and in 1956 H M the Queen approved the title of the Royal Coll. of Science and Technol, Glasgow The coll. was affiliated with the Univ. of Glasgow in March 1913 and was recognized by the University Grants Committee and placed on the list of univ instns receiving grant from the Treasury in 1919.

Constitution The coll. operates under the City of Glasgow Royal Coll of Science and Technology Glasgow Scheme 1962 in terms of section 123 of the Education (Scotland) Act 1946, with a coll council of 11 members elected by public bodies and the academic bd, 8 members co-opted by the council and the principal of the coll. The council is responsible to the Scottish Educn. Dept for the management of all coll affairs, academic matters are under the control of the academic bd composed of hds. of depts with reps of the non-professorial staff

Income (1960–61). £985,620 (fees, 9 9 per cent., donations, etc, 0 4 per cent, endowments, 1 2 per cent; parliamentary grants, 87 8 per cent.; other income, 0 7 per cent.).

Buildings The main coll bldg, which is situated in the centre of Glasgow, was completed in 1910. Built on a very liberal scale, it proved adequate for the expanding work of the coll. until just before 1939 when a small extension was added Since then a major extension for mech, civil, chem. and mining engin., and a large students' union have been added and bldgs. acquired for a dept. of food sci. and the sch. of navigation The gift of a mansion house and grounds near Glasgow in 1955 provided the nucleus of what is now a residential centre for management studies Site work began on further extns. to occupy total island area and to house chem, chem engin., chem. technol. and mech engin. These should total 153,000 sq. ft and the rehousing will give an opportunity to other depts. for much-needed expansion.

Libraries. The Andersonian libr., commemorating the founder of the coll., houses an extensive range of technical and scientific publicns. (over 55,000), incl. many of historical interest, the founder's libr. and the James Young collection of early alchemical, metall and chem. books. There are also deptl. librs.

Laboratories Ample facilities for undergrad and postgrad. work of the highest standard.

Admission Admission to courses leading to degrees of the Univ. of Glasgow is conditional upon obtaining an attestation of fitness from the Scottish Univs' Entrance Bd. (*see* Appendix III). The conditions for admission to associateship courses are broadly similar, except that a pass in a foreign lang is not essential. Students wishing to read for external degrees of the Univ. of London must satisfy the admission requirements of that univ. (*see* Appendix III)

Courses Under the affiliation ordinances, the coll. provides full qualifying courses for hons. degrees of the Univ of Glasgow in civil, mech, chem., electr. and mining engin., appl chem, appl chem (metall.), appl chem. (ceramics), pharm., archit., appl bacteriol, food sci., textile sci, and in maths, appl phys for the Univ of Glasgow ord degree BSc(Tech). For the associateship of the coll (ARCST), courses of 4 yrs. are provided in civil, mech, electr, chem. and mining engin, naval archit, appl. chem, metall, ceramics, maths, appl. phys., pharm., food sci., microbiol, bldg. and textile technol Entrance qualifs. for the associateship courses are given in the *Prospectus of Full-time Courses*.

Courses (1 yr) for coll postgrad. dipl. in advanced studies (DRC) are available in maths; appl phys; chem. process devel, polymer sci; extraction metall; phys metall., mech engin, power engin. (incl. nuclear power); prodn. engin; civil engin.; struct engin.; environmental control engin & resource utilization, electr. engin; mining engin.; mining geol., appl. geophys.; pharmaceut. chem; appl biochem.; naval archit., food sci.; microbiol; textile technol, town planning

The Glasgow Sch of Archit. is constituted by the depts of archit. in the coll and the Glasgow Sch. of Art under a jt. cttee. of governors, and issues dipls. in archit (5 yrs) and postgrad. dipls. in town planning (5 terms).

The dept. of indust admin. in the coll, together with the dept. of business admin. in the Scottish Coll. of Commerce, form the Glasgow Sch of Management Studies under a jt. cttee of governors and make jt provision of courses in personnel management (1 yr.), indust. manage-

ment (1 yr) and dipl in management studies (4 yrs. pt -time) The coll. residential centre for management studies at 'Chesters', Bearsden, nr. Glasgow, has accomm for 54 students A sp feature of the work of the centre is a series of short full-time courses for persons nominated by firms.

In pt.-time classes the coll offers a very wide range of technol courses at advanced and postgrad. level. Under the scheme of the W. of Scotland ctte for technical educn., the coll classes form the apex of an educnl. pyramid, and pt -time students from all parts of the W of Scotland can complete their courses at the R C S.T.

RESEARCH Students can pursue res for higher degrees of the Univ. of Glasgow and for coll postgrad dipl. In addn to fundamental res , the *coll. works in close co-operation with res assocns.* and industry This is a sp. feature of coll. policy, which adds greatly to its res resources and makes possible work on problems of current interest, sometimes on pilot plant and even larger scale. *Report on Research* publd. annually by coll.

GENERAL INFORMATION

Queen's College was establd. by royal charter in 1845, opened in 1849, and linked with colls. at *Cork and Galway as the Queen's* Univ. in Ireland in 1850. Originally there were three facs, arts (with sci and lit divisions), med and law. In 1879 Queen's Coll became a constituent coll of the Royal Univ. of Ireland. The governing body was the purely academic coll. council At the turn of the century private benefactions led to increased bldgs. and addtnl. staff In 1908 the coll became the Queen's Univ of Belfast, the Royal Univ of Ireland being dissolved in the *following yr The senate became the governing* body, consisting of reps. of the public life of Ulster, of the profs. and of grads. The identification of the new univ with the interests of Ulster became closer on the estabit in 1920 of the govt *of N. Ireland* from which the univ's income is largely derived on the advice since 1945 of the Univ. Grants Cttee Since Queen's Coll. became a univ the following facs. have been added to the original 3: in 1910 sci. and econ.; in 1921 appl sci & technol with the co-operation of the Belfast Coll. of Technol; in 1924 agric., whose work is co-ordinated with that of the Ministry of Agric for N. Ireland; and in 1926 the fac. of theol., most *of the teaching for which is given in the Presby*terian Coll., Belfast, and in Edgehill Theol. Coll., *Belfast*

Belfast (pop 454,000) is a county borough and the capital city of N. Ireland.

CONSTITUTION. The authorities of the univ are the chancellor, who is the titular chief officer; the pro-chancellors (of whom there may be 3); the pres and vice-chancellor, who is the principal academic and admin. officer; the senate, which is the governing body; the academic council, which *is the* body of profs and certain lectrs responsible for internal academic affairs; the gen. bd. of studies, which considers courses of study and recognition of colls. and teachers; the facs; and convocation, the statutory body of grads., which elects the chancellor and 8 members of senate and may consider any matter referred to it by senate

GENERAL INFORMATION

Trinity Coll. was founded and incorporated by royal charter in 1592 as 'mater universitatis', but no other coll. has been founded, so that 'Dublin Univ' and 'Trinity Coll.' are practically interchangeable terms. The original charter granted very full legislative powers to the provost and sr fellows, who constituted the bd Legislation of Charles I took away many of these powers, which were reserved to the crown. By letters patent of 1911 the crown again granted wide powers of making statutes to the corporation, subject to the *consent of a majority of the fellows and the* approval of the visitors.

Dublin (pop 716,156) is the capital and principal seaport of Ireland, lying on the E. coast at the hd of Dublin Bay

CONSTITUTION. The general govt. of the coll. is in the hands of the bd. of Trinity Coll., which consists of the provost, sr. fellows, 4 reps. of jr. fellows and 2 reps. of the non-fellow profs The univ. council, formed by reps. from the bd. and various facs. and schs., has the right of nomination to most professorships, and in conjunction with the bd. can make changes in the curriculum, but otherwise has only advisory functions.

GENERAL INFORMATION

The coll had its origin in the Catholic Univ. of Ireland, founded in 1851. From 1851 to 1859 its rector was Dr. John Henry Newman. In 1854 its facs. of theol., philos., letters and sci. began their work and in 1855 the fac. of med was formally opened in Cecilia St, where it continued to operate until 1932 The foundation of the Royal Univ in 1879 led to a change of title (1883) by which what had originally been St Patrick's House in the Catholic Univ. became the seat of Univ. Coll., Dublin From 1883 until the passing *of the Universities Act, 1908, the coll. was ad*ministered by the Jesuit Fathers. Under that act and by royal charter of Dec. 2, 1908, it was re-establd as a constituent coll. of the National Univ. of Ireland.

The original bldgs., dating from 1845, house the admin , the central library, and the facs. of arts, comm , law and med. Civil engin is also housed in these older bldgs. at present, but a bldg. programme, which is being planned for the next 5-10 yrs , will provide new accomm therefor The proposed bldg programme will double the existing accomm. in the coll., providing much-needed addtnl. space for all depts.

GENERAL INFORMATION

The South African Coll , founded in 1829 as a private venture by the churches and citizens of Cape Town and its neighbourhood, was until 1874 a combined primary and secondary sch with a tiny univ. section at the top Although the coll had always had a senate, it was only in 1879 that the governing power passed from the body of shareholders to a council In 1887 College House, the first univ. residence south of the Sahara, was opened and in the same yr the general admission of women was granted Courses in law were added to the arts and sci courses. From 1900 to 1918 the coll expanded There were the beginnings of the schs of med , engin. and educn., the opening of the first women's residence and finally the incorporation of the coll. in the univ which was created by Act 14 of 1916 and came into legal existence on April 2, 1918 The council took over a bequest by Sir Julius Wernher of R500,000 and a donation of equal amount from Sir Otto Beit, who added R100,000 to a lapsed bequest by Mr. Alfred Beit.

A site for the univ was provided by govt. at *Groote Schuur, Rondebosch. Over the past 40* yrs this has been devel (*see* 'Univ Precinct and Location', *below*) by the erection of tuitional bldgs., several student residences and the Jameson Memorial hall The univ. has expanded through the incorporation of the S A Coll. of Music, the creation of facs. of comm., soc. sci., schs of African studies, fine art and archit. and the growth of existing facs. Further land adjacent to the site has been purchased and med. bldgs. erected. Greater expansion is envisaged in view of the post-war increase in population and rapid *scientific devels*

Constitution. The hd. of the univ. is the chancellor; the chief academic officer is the principal, who is *ex-officio* vice-chancellor ; the governing body is the council, which consists of the principal (*ex officio*), 5 members nominated by the govt , 6 members elected by convocation, 3 by the old students' constituency, 1 by the diocesan coll constituency, 3 profs. by senate, and 2 members elected by Cape Town corporation. The control and management of discipline and instrucn. within the univ. is in the hands of the senate, which consists of the principal, the profs , 2 members elected by the council and 2 assessor members elected by the lecturers' assocn of the univ

Convocation, which consists of the profs. and lectrs of the univ and its grads., elects the chancellor, 6 members of the council, and a pres. of convocation ; it may discuss any matter relating to the univ., and may communicate directly with the council or the senate

Income (1961). Total income · R2,229,709 (govt grants, 63·2 per cent. , fees, 33·7 per cent. , endowments, etc , 3 1 per cent.)

Faculties. Arts, comm., educn., engin , fine art & archit., law, med., music (incl. ballet and opera schs.), sci. and soc. sci Deans, except of fac of med., are apptd. annually.

University Precinct and Location. The main bldgs , designed chiefly by Sir Herbert Baker, are set on the Cecil Rhodes estate, Groote Schuur, against the background of the eastern slopes of Table Mountain and Devil's Peak, approx. 5 mls. from Cape Town. The site commands a superb view. These bldgs house all facs. except comm., med. and music, which are situated, respectively, in Cape Town, Mowbray (2 mls. from the main bldgs) and Rosebank (½ ml. from the main bldgs.)

Library. 330,000 vols., 35,000 pamphlets. Includes med. libr. (41,000 vols) ; music libr.— books (4500), scores (19,000) and records (6300) ; archit. libr (6700 vols.) ; Van Zyl law libr. (early Roman-Dutch law) and Bolus bot. libr. The

Bolus herbarium includes the Guthrie collection of Cape flora

TEACHING HOSPITALS Groote Schuur H., Cape Peninsula Maternity H, Mowbray Maternity H., Red Cross War Memorial Children's H and certain wards in Somerset H.

ADMISSION TO SOUTH AFRICAN UNIVERSITIES.* The qualif for entrance to a course of study for a first degree of any univ. in South Africa is the matric. cert. of the Joint Matric Bd. for the nine univs. in South Africa, or a cert. of exemption issued by that bd. A successful candidate at the matric. exam may be awarded *either* a sch. leaving cert. *or* a matric. cert., depending upon the subjs. passed, the standards attained in specific subjs. and aggregate marks The sch. leaving cert is not an entrance qualif. for a course leading to a degree, although it may be accepted by the univs for admission to courses of study leading to certain dipls. and certs.

Approved subjects for the matric. exam The list of approved subjs is as follows

Section A (1) Afrikaans (H. or L.) §; (2) Engl (H. or L.); (3) Nederlands (H. or L.); (4) German (H. or L.), (5) Bantu langs. (H. or L.); (6) Latin; (7) Greek, (8) French, (9) Hebrew, (10) Portuguese; (11) Italian; (12) maths., (13) phys sci (not to be taken with 14 or 15), (14) phys; (15) chem; (16) biol. (not to be taken with 17 or 18), (17) bot; (18) zool.; (19) geol.; (20) geog.; (21) hist.

Section B (22) agric.; (23) housecraft & hygiene; (24) book-keeping & comml arithmetic, (25) shorthand & typewriting, (26) addtnl. maths. (may not be taken without maths); (27) mechanics (may not be taken with phys. or without maths.); (28) art; (29) music; (30) book-keeping [as from Nov./Dec 1963] (not to be taken with 24); (31) typewriting [as from Nov/Dec 1964] (not to be taken with 25)

No lang. may be taken on both the higher and the lower grade.

Candidates are required to take, at one and the same exam, not fewer than 6 or more than 7 subjs., and to pass in not fewer than 5 subjs with not less than 33⅓ per cent. in each of the 5, and obtain a fixed min. aggregate, the aggregate for the matric. cert being 1000 marks and that for the sch. leaving cert. being 800 marks. Candidates so passing obtain EITHER *sch. leaving certs.* if the subjs. passed incl. (i) an official lang. (*i.e.* Engl. or Afrikaans) on the higher grade and (ii) another lang.; OR *matric. certs*, if the subjs. passed incl. 4 subjs. in each of which the candidate has obtained the matric. standard of 40 per cent, viz. (I) an official lang. (*i e* Engl. or Afrikaans) on the higher grade, (II) the other official lang., on the higher or lower grade, or an approved Bantu lang. on the higher grade or Latin or Greek or French or German or Italian or Portuguese or Hebrew; (III) maths or a sci, (IV) maths if not taken under (III) or another lang from (II) or hist. or geog. or a Bantu lang. on the lower grade (provided that a Bantu lang. on the higher grade has not been offered under (II)) or other lang. in which the bd. decides to conduct an exam. Candidates who are awarded a matric. cert. must have *either* (i) included in their 4 subjs maths. or an approved lang other than Engl or Afrikaans *or* (ii) taken maths. or an approved lang other than Engl or Afrikaans as a 5th subj, and obtained not less than 33⅓ per cent. of the total marks *Note*: (1) a candidate whose home lang. is a Bantu lang may present a recognized Bantu lang in lieu of Engl. or Afrikaans (higher grade) under (I) above. In such cases both Engl and Afrikaans must be passed on at least the lower grade. Likewise a candidate whose home lang is German, who is attending sch. in S.-W. Africa and whose parents are/were domiciled in S.-W. Africa, may present German (higher grade) in lieu of Afrikaans or Engl. (higher grade). In such cases the candidates must *enter* for both Engl. and Afrikaans, one of which must be on the higher grade, and *pass* in both Engl. and Afrikaans on at least the lower grade (a mark between 30 per cent. and 39 per cent in the higher grade being recognized as equivalent to 40 per cent on the lower grade) (ii) As from Nov./Dec 1963 an approved lang. other than Engl. or Afrikaans will be defined as Latin, Greek, French, German or an approved Bantu lang (iii) As from Nov./Dec. 1962 a candidate must have passed in *either* 2 langs. plus maths. *or* 3 langs. if he does not pass in maths

The four provincial depts. of educn. in the union (Cape, Natal, Orange Free State and the Transvaal), and the Dept. of Educn., Arts and Sci., conduct exams for a sr. cert. on syllabuses approved by the bd. These exams are recognized by the bd for exemption from its own matric. exam subject to conditions prescribed by the bd

Faculty and departmental requirements. Although the bd.'s matric. cert. or cert. of exemption is the normal requirement for admission to a univ, certain subjs are prescribed by the univs as prerequisites for enrolment in some depts. or facs A student is advised to have a broad general educn. and to take for the matric. cert. at least 2 of the subjs., maths., Latin, Greek, French, German, in addn to both official langs., *i.e.* Afrikaans and Engl Maths. is essential for agric, archit., engin., for., med. and quantity surveying, and highly desirable for courses in accty., land surveying and sci. A knowledge of Latin of matric. standard is necessary for law Further particulars of fac. and deptl. requirements should be obtained direct from the registrars of the individual univs, *not* from the Joint Matric. Bd

* A full and official statement of the matric requirements of the South African univs. is contained in the annual *Matric Exam Handbook* publd. by the Joint Matric Bd., P.O. Box 392, Pretoria, South Africa. Full details of each univ 's fac and deptl. prerequisites, which are addtnl. to the Joint Matric. Bd.'s requirements, should be obtained direct from the registrar of the univ, not from the Joint Matric. Bd

§ H. = higher grade, L. = lower grade.

Overseas examinations. The bd. recognizes for purposes of exemption sch. certs. issued by a number of overseas bodies if the certs. entitle the holder to unconditional admission to an approved univ. in the country of origin and the subjs. passed and the standard attained are in accordance with the bd.'s regns. for its own matric. cert. As examples, a credit in a subj. for the Cambridge Overseas Sch Cert. is accepted as equivalent to a '40 per cent. pass', and a pass in a subj. for the Higher Cert of the Oxford & Cambridge Schs. Exam Bd and a pass at ordinary level in the General Cert of Educn are similarly accepted Exemption is given subj for subj (Engl lang. but not Engl. lit, is recog as fulfilling the requirement for exemption from Engl). The bd. is, however, not prepared to recognize a Bantu lang of the Cambridge Overseas Sch. Cert. as equivalent to a Bantu lang. at a South African exam. The bd may issue either a cert. of full exemption or a cert. of conditional exemption which may be converted into a cert of full exemption if the holder fulfils specified conditions within a prescribed time For full exemption on the strength of the Cambridge Oversea Sch. Cert. or the General Cert of Educn, the bd.'s requirements include passes in at least 2 subjs. at principal or advanced level.

Overseas qualifs. recog by the bd. incl the sch certs awarded by each of the 9 examining bodies in England and Wales recog by the Ministry of Educn. for England and Wales (*see* p 1552); the General Certs of Educn. awarded, in and after 1951, by the same 9 examining bodies, the Higher Sch. Certs of 6 of these examining bodies (*i.e* Oxford & Cambridge Schs. Exam Bd; Northern Jt. Matric Bd; London Univ.; Oxford Local Exams Delegacy; Univ of Cambridge Local Exams Syndicate, Central Welsh Bd.), inter exam, 1st class, of Indian univs; matric or other entrance cert. of other approved univs.; leaving cert of educn. depts. or secondary schs. entitling holder to admission to an approved univ.; leaving certs of educn. depts. of Scotland and Eire; Sr. Cert. of Educn. Dept., N. Ireland; Forces Prelim exam.; passing-out exam. of Royal Naval Coll, Dartmouth, Hoofdakte (Holland); einddiploma of a gymnasium or hogere burgherschool with 5 yrs' course (Holland); Akte van Bekwaamheid als Hoofdonderwijzer (Holland), dipl of the Technische Hoogeschool (Delft); einddiploma of the Middelbare Technische Sch. (Holland); einddiploma of the Middelbare (or Koloniale) Landbouwschool (Holland); einddiploma, gymnasium, Holland; dipl of the École Supérieure de Jeunes Filles, Switzerland; abiturium at a gymnasium or oberrealschule in Germany or Switzerland; maturitäts-zeugnis or zeugnis der reife at gymnasium or oberrealschule in Germany or Switzerland; baccalauréat (Bès Lettres, or BèsSciences or BenDroit 2nd pt.), France; Italian licenza di maturità classica and licenza di maturità scientifica; matric. cert of the Ministry of Educn. & Culture, Israel; cert. of the 3rd cycle of a Portuguese lyceum; Greek apolytirion.

Special exemption Non-matriculated candidates over the age of 23 who desire to proceed to a degree and are not eligible for exemption under the ordinary regns. may, under certain conditions, be specially exempted from matric on the recommendation of a univ *Such candidates cannot be* admitted to a degree unless they have not only completed the curriculum for the degree but have also fulfilled any other conditions for exemption from the matric exam

A new sci. block and a women's hall of residence were added in 1921 and a residence for men in 1928. A new wing was added in 1934 and a library and fine arts sch in 1936. In 1926, a site of 50 acres at Stellawood, Durban, was presented by the corporation of the city of Durban, for the erection of an engin. coll., and £50,000 was donated by Mr T. B Davis in 1924 for this purpose. Howard Coll., as it is called to-day, was opened in Durban in 1931. A new comm bldg., situated on a central site in the city of Durban, was added in 1936. 6 halls of residence in Durban and 2 halls of residence in Pietermaritzburg and tuition bldgs. have been erected at a cost of over R7 million since 1945. By virtue of Act no 4 of 1948, the Natal Univ. GENERAL INFORMATION

The beginnings of Rhodes Univ. date from 1855, when St. Andrew's Coll. was founded at *Grahamstown. For many yrs. this sch. prepared* students for degree exams., as well as for the usual sch. exams. In 1878 the sch. establd a separate coll dept. for the purpose of preparing students for the exams. of the Univ of the Cape of Good Hope. In 1904, generous financial support from the Rhodes trustees, the citizens of Grahamstown and the public bodies of the Eastern Cape, made it possible to separate this coll. dept. from the sch., and it was incorporated by act of parliament as Rhodes Univ Coll. The coll. continued to prepare students for the degrees of the Univ. of the Cape of Good Hope until 1916, when it became a constituent coll of the *Univ. of S Africa. In 1949, parliament passed* an act incorporating the coll. as Rhodes Univ., which came into being on March 10, 1951. From the same date (up to 1959), the S. African Native Coll. (now the Univ. Coll. of Fort Hare) was affiliated to the new univ.

The univ. now owns an impressive array of bldgs. erected progressively since 1914 on an excellent site, the nucleus of which was donated to the coll by the govt All the bldgs, which comprise admin., academic and residential blocks, *are situated within easy reach of one another, and* of the univ. sports fields.

Grahamstown is a town with a population of about 32,000 of whom over half are non-white. The students of the univ are, however, drawn from all parts of the Union and the Fed. of Rhodesia & Nyasaland.

Port Elizabeth Division In 1961 a div. of the univ was inaugurated in Port Elizabeth, a town of 270,000 inhabitants, of whom about 160,000 are non-white, situated on the coast 80 miles from Grahamstown Tuition is offered for the BA, BCom & BSocSc degrees, the lower secondary teacher's dipl. and the cert. in the theory of accountancy; it is hoped to extend the range of courses in future yrs

Constitution. The univ consists of the chancellor, the principal, who is *ex officio* the vice-chancellor, the vice-principal, who is *ex officio* the pro-vice-chancellor, the council, senate and convocation, together with the profs., lectrs., other teachers and the students.

[The statement which follows relates only to the admission of students proposing to take full courses leading to a first degree For information regarding admission to courses leading to higher degrees, *see* the entries for the several univs., *above*.]

GENERAL NOTE

The primary and secondary educnl systems of the Australian states are the responsibility of the various state govts Consequently they differ in many respects. However, they are all alike in that they prepare students to the standard necessary for matric. at the univ. or univs establd. in their home state. In all cases there is some liaison between the state educnl. system and the univs. in that state to ensure that candidates coming forward to the univs will be able to comply with the matric requirements.

In Australia, each univ. controls its own admission requirements Thus the Univs. of Adelaide, Melbourne, Monash, New England, New South Wales, Queensland, Sydney, Tasmania and Western Australia, and the Australian National Univ., have individual matric requirements which are specified below.

The Australian National Univ. comprises 2 sections, namely the inst of advanced studies and the sch. of general studies. The inst. is concerned with postgrad. res. and study and does not conduct courses leading to a first degree. The minimum academic requirement for admission as a student studying for a doctor's degree is a first degree with hons. from a recognized univ., but the inst. needs to be satisfied as to the student's capacity for res The sch. of general studies is responsible for courses leading to the degrees of bachelor or master.

The admission requirements of the Australian univs have the same purpose, being designed to ascertain whether candidates are educationally fitted to undertake courses leading to a first degree. This may be done either at a public exam. open generally to secondary sch. students or at a sp. matric. exam. conducted by the univ. In some cases passes are required in sp. subjs. for entrance to the different facs., in addn to the requirements for matric

Although the requirements for entrance to the various univs. are not uniform, all possible reciprocity is exercised in the interchange of students, whether from Australian or British univs. In general the univs. will admit to matric. *ad eundem statum* a student who has matriculated or qualified to matric. at another univ. of recog. standing, but in some cases passes in particular subjs. at matric. standard, or in compulsory 'prerequisite' subjs. for particular courses, may be required.

Sp. facilities are offered for matric. in some univs to persons of mature age who have not had the opportunity of qualifying in the ordinary way and who pass certain sp entrance tests.

The table opposite shows the public exams. in

each state recog by the univs. for matric. purposes, except as indicated by * The exams. are fully recog. only by the univ conducting them, though, as mentioned above, qualification by a student for matric. at the univ of his home state is generally recog., in so far as standard is concerned, by the other Australian univs.

The average age of entrance upon univ. study is 17 plus in most states, 18 plus in Queensland

Exams. are also conducted in music in each state under the general auspices of the Australian Music Exams. Bd. Passes in appropriate grades at these exams. are accepted as passes at leaving cert. standard and, consequently, for matric purposes, in most states. In Victoria, however, the exams are recog for purposes of inter and leaving cert exams but the Univ. of Melbourne conducts its own exams in matric music.

The minimum age for matric is 16 yrs.

South Australian Candidates

In general the requirements for matric. in the Univ. of Adelaide are 5 subjs. taken at the leaving exam. held annually in Nov.–Dec. and chosen from the following groups with certain subjs. specified for the various facs. as follows:

Group A.	Engl.
Group B	(i) Latin, Greek, French, German, and such other langs. as may be approved for matric. purposes by the council on the recommendn. of the matric. bd ; (ii) anc. hist., mod. hist., econ. hist., econ., geog., music.
Group C	(i) maths pt. I, maths. pt. II ;

(ii) phys., chem, geol, bot., physiol, agric. sci.

Group D. Arith., drawing, book-keeping.

(*a*) To fulfil the educnl requirements for matric. a candidate must

(i) pass in at least 5 subjs. from groups A, B, C and D, above, incl. at least one subj. from each of groups B and C; *provided that* if either maths pt. I or maths. pt II is counted, arith. cannot be counted;
(ii) include in his 5 subjs. at least one subject from section (i) of either group B or group C;
(iii) *either* pass in Engl. lit. as one of the 5 subjs, *or* satisfy the examiners of his ability to use the lang. as an instrument of expression.

The qualif. in Engl. obtained by a candidate who has satisfied the examiners of his ability to use the lang. as an instrument of expression shall not count as a subject.

(*b*) The attention of intending candidates is drawn to the fact that, although such requirements do not form part of the general requirements for matric., in some 1st-yr. subjs at the univ. either a pass in the corresp. subject at matric standard is prescribed for admission to the class or a knowledge of the subject at matric. standard is assumed.

Attention is drawn to the following:

(*a*) *Lang other than Engl* At least one course in Greek, Latin, French or German is compulsory for the ord. BA degree. No candidate may take the course in Greek I, Latin I, French I or German I until he has passed in the corresp subject at the leaving exam or at an exam accepted by the univ. as equivalent.

(*b*) *Maths.* Courses in maths. are compulsory subjects in the engin. course; further, a 1st-yr course in maths. will for many candidates be an essential or desirable subj. in certain other courses (*e.g.* sci.). No candidate may be admitted to a 1st-yr. class in either until he has passed *either* in leaving maths. pts. I and II *or* in an exam. accepted by the univ. as equivalent

(*c*) *Phys and Chem.* Although a pass at leaving standard is not a prerequisite for admission to the classes in 1st-yr. phys and chem, the syllabuses in these subjs presuppose a knowledge of phys and chem at leaving standard.

(*d*) *Music* Harmony II is a compulsory subject in the 1st yr of the course for the MusBac degree, and no candidate will be admitted to the class in that subj. until he has *either* passed in the theory of music at the 7th grade of the public exams. in music *or* in a sp. entrance exam in the theory of music of equivalent standard

(*e*) *Law* A pass in Latin at leaving standard is a prerequisite for entry to the class in Roman law, an optional subj in the LLB degree course.

(*f*) *Building Sci.* The syllabus in this subj. presupposes a knowledge of chemistry at leaving standard.

Candidates from other Australian States

Matric in any other Australian univ. is accepted provided that the subj. and grouping requirements, as prescribed for S. Australian students, are met. A candidate whose qualifs. for matric in the univ. of his own state do not incl. one or more of the subjs specified by Adel is required to pass in only the outstanding subj or subjs

Overseas Candidates

(*a*) *United Kingdom, Canada, Ceylon, New Zealand and South Africa.* Qualifs which entitle the holder to matric in the corresp fac in any recog. univ of any country listed above are accepted, provided that the subj and grouping requirements, as prescribed for S Australian candidates, are met The English G C E is accepted on a basis similar to that required by English univs., provided that certain subjs. (other than Engl.) specified at leaving standard by Adel. have been passed at the advanced level.

(*b*) *Other parts of the British Commonwealth* The requirements for candidates from other parts of the Commonwealth, esp from southern and eastern Asian countries, in general conform to those of U.K univs, so far as standard is concerned, and incl the specially prescribed subjs. required by Adel of its local candidates.

Candidates from India and Pakistan are required to have passed at a good standard in their own univ's inter exam in arts or sci. and to have incl in that exam. Engl. and such other subj or subjs. as may be prescribed for S. Australian candidates.

(*c*) *Other overseas students* A candidate may be admitted to matric. who (i) holds a cert. which qualifies him for matric in a recog. European or United States univ, provided that the subjects specified in the Adel. requirements are included and provided also that the cert contains at least one mod lang and lit, (ii) in the case of a candidate whose native lang is not Engl, has passed in a standard Engl. test, and (iii) has passed in the prescribed fac prerequisites as follows:

Sci. and engin (and for admission to the class in 1st-yr. maths.). Either maths I and II at the S Australian leaving exam. or (in approved cases only) a sp. exam. in maths. of equivalent standard

A candidate who is unable to present acceptable evidence of matric. work done elsewhere must pass in appropriate subjects at the S. Australian leaving exam.

Mature Age

No provision is made for modification on account of age of the normal requirements for matric

Special Cases

The matric bd may consider applicns. from candidates who have qualifs. in secondary educn. but have not satisfied the normal requirements for

(B) CANADA

(Contributed by Dr E. F. Sheffield, Research Officer, Canadian Universities Foundation)

[The statement which follows relates only to the admission of students entering at the conclusion of secondary school studies and proposing to take full courses leading to a first degree. For information regarding admission at higher levels and to courses leading to higher degrees, *see* the entries for the several univs., *above*]

GENERAL NOTE

The public elementary and secondary schools of Canada are under provincial jurisdiction: each province has its own curriculum and awards its own certs. of completion of secondary school studies. Except in French Canada (*see below*), private schools are relatively few, enrol less than 5 per cent. of the elementary and secondary school population, and usually follow the public school curriculum of the province in which they are located. Courses of study which prepare for entry to univ. are of 11 to 13 yrs ' duration Secondary school graduation certs. are at two levels, one generally referred to as the *junior matriculation* level (after the 11th or 12th grade or year of schooling), and the other, involving an addtnl year of study, as the *senior matriculation* level (after the 12th or 13th grade or year of schooling).

Some univs. admit at the jr. matric. level, some at the sr. Some admit at both levels, allowing credit for one yr. of univ studies on the basis of certs at the sr matric. level. Each univ couches its entrance requirements in terms of the certs awarded in its own province but all treat certs. of other provinces as if they were approx equivalent to their own, differentiating only between jr. and sr. levels.

Most exams. marking the completion of high school (secondary) studies are set and marked by the dept of educn. of the province concerned Three of the four Atlantic provinces (Newfoundland, Prince Edward Island and Nova Scotia) co-operate in the support of an Atlantic Provinces Examining Bd which sets and marks exams for each of the three provinces. The exams. differ for the various provinces, however, and the results are issued by the provinces on their own certs. rather than by the bd An exception is made for a few private schools for which statements of exam results are issued in the bd 's name. In the province of Quebec there are two public examining bodies : for Catholic schools—the *Comité de Régie du certificat d'études* (of the *Comité Catholique du Conseil de l'Instruction Publique*), and for Protestant schools—the Protestant High School Leaving Bd. (of the Protestant Cttee. of the Council of Education). In Ontario, exams. at the jr. matric. level are set and marked, under the jurisdiction of the provincial dept of educn., by individual schools, while those at the sr. matric. level are under the supervision of a Univ. Matric. Bd. composed of reps. of the major univs. of the province and reps. of the dept. of educn. In Manitoba, Saskatchewan, Alberta and British Columbia exams. are supervised jtly. by the univ. and the dept. of educn.

that candidates for admission should have reached a specified minimum age. Where there is such a requirement, it is noted

Required standing Where no mention is made of required standing or average, it may be assumed in most cases that a pass standard is the minimum expected.

It should be noted that in most univs., admission to such professl. schools as med., dent., law, theol., library sci., social work and educn. requires the previous attainment of a 1st degree in arts or sci. or at least 2 yrs of study, beyond the jr. matric. level, in arts or sci. Reference to these is omitted except in the few cases (*e.g.* med. and dent at

Toronto) where the pre-professl studies are followed in the professl. school itself and where admission is normally at the conclusion of secondary school studies.

Some oft-used terms defined:

Junior matriculation. Eligibility for admission to univ. at the lower of the two common levels of entry. A student holding a secondary school graduation cert may or may not have 'junior matriculation' standing, depending on the number and pattern of the subjs taken and his standing in the exams.

Senior matriculation. Eligibility for admission to univ. at the higher of the two common levels of entry. Involves one yr. of study beyond the jr matric. level.

Grade, Year. One yr. of primary or secondary schooling, Sept to June. Thus grade XI is the 11th yr. of schooling, *12e année* is the 12th.

Pass or General Course An unspecialized univ. course, commonly leading to a bachelor's degree in 4 yrs. beyond jr. matric., or 3 yrs beyond sr. matric

Honours course. A specialized univ. course, sometimes of the same length as the pass or general course, more often one yr longer.

Preliminary year When a univ. calls the course-yr beyond sr. matric. '1st yr', but offers instruct. in a course-yr. following jr matric., the latter is usually referred to as the 'preliminary yr'

First year, Second year, etc., of course. Counting from jr. or sr. matric., depending on which is the minimum level of admission to the fac. concerned.

Freshman, Sophomore, Junior, Senior year of course. 1st, 2nd, 3rd, 4th yr., usually counting from the jr. matric. level.

Subject, Paper In any one *subject* in which a candidate is examined for graduation from secondary school he may be required to write 1, 2 or (occasionally) 3 *papers.*

Elective, Option. A matric. subj which may be chosen with more or less freedom from a list of subjs, no one of which is compulsory.

Credit. When an entering student is given *credit* for a univ. subj., he is exempted from it and the number of courses required for the degree is thus reduced.

College aptitude test. Usually a psychological exam. of scholastic aptitude: an intelligence test or something similar

Music certificates. Certs. required for admission to facs. of music frequently are referred to in such terms as: grade VIII practical, grade II theory. The reference is to the exams. of one or other of the conservatories of music in the region.

MED. There are no spec. addtnl requirements for entry to the fac. of med. It is not necessary for candidates to have taken sci subjects at advanced level in the G.C.E. exam., but it is advisable that phys and chem should have been studied up to ordinary level, since the 1st MB courses are designed on the assumption that students have an elementary knowledge of these subjs.

Exemption. Passes at advanced level in phys., chem and biol. (or bot. and zool.) may entitle a candidate to exemption from the corresp courses and exam of the 1st MB A pass at advanced level in zool. will also be accepted as grounds for exemption from the courses of study and exam. of the 1st MB biol. provided passes at the advanced level in chem. and phys. have also been obtained Every endeavour is made to admit all eligible candidates direct to the 2nd yr. of studies, but occasionally the number of eligible candidates exceeds the number of vacancies. DENT. SURG. There are no spec addtnl. requirements for entry to the sch. of dent. surg., but it is desirable that phys and chem. should have been studied up to ordinary level in the G.C.E. exam., as the 1st-yr. course for the BDS is designed on the assumption that students have an elementary knowledge of these subjs

Consequently, it is advisable for prospective applicants to acquaint themselves with the requirements of the appropriate professional body

ENGIN. Courses in the fac. of engin. are designed on the assumption that students have some previous knowledge of pure and appl maths., phys. and chem Candidates are recommended to present in the G C E. exam at the advanced level (*a*) maths. plus further maths plus phys., (*b*) maths. plus phys. plus chem., or (*c*) maths. plus phys plus 1 other subj. Where it is possible to present maths with different alternatives, it is strongly recommended that an alternative which includes theoret mechanics should be presented All candidates are strongly recommended to study chem. to at least the ordinary level of the G.C E. For admission into the dept. of metall. it is recommended that candidates present combination (*b*). Applicns from candidates with other suitable combinations of subjs. will be considered.

Course Requirements

LETTERS. A candidate qualified for matric. on the G C E who wishes, or who is required, to offer Latin in the 1st univ. exam, must normally have obtained a pass at advanced level in the G C E in that subj. before entry. An advanced level pass in Latin is thus normally required of students intending to follow the hons course in classics, Latin, Greek, Engl., Latin and Engl lit, Greek and Engl lit., or Latin and French. A candidate intending to follow the hons course in French or Italian or a combined hons course in mod. langs (French and German, German and French, French and Italian, Italian and French) will normally be required to have passed in Latin at advanced level or to have passed in 2 mod. langs. at advanced level and in Latin at ordinary level. A candidate intending to follow the hons course in German or in mod hist will normally be required to have obtained at least an ordinary level pass in Latin. A candidate intending to follow the hons course in geog. who wishes to offer geol. in the 1st univ. exam. must have obtained an ordinary level pass in chem.

SCI In general, an advanced level pass in the G.C.E. is required in any subj to be offered in the BSc yr I course, except that the requirements for geol, microbiol, psychol., phys. properties of materials and cybernetics are covered by those of other subjs. For bot, passes in bot and chem. are necessary; for zool., a pass in biol., and for physiol chem., passes in bot. or zool. or biol are alternatives.

AGRIC A candidate intending to follow either the pass or hons. course in agric or dairying or hort. is normally required to have gained, before entering the univ, one yr.'s practical experience of a type suitable to the particular course he proposes to follow. In the case of dairying, it is preferable that 6 mos. of the period should be spent on a dairy farm and 6 mos in a dairy factory

Exemption from First-Year Courses and Exams.

LETTERS No exemption from the 1st univ exam in arts is permissible, except for grads of approved univs.

SCI The inter. course and exam will be discontinued at the end of the session 1962–63. No exemption from the yr I course is permissible.

AGRIC Pass courses are provided in agric, hort. and dairying. First univ exam in agric; the course and exam are in 2 sections, section A *consists of phys, chem., bot., zool.* and geol (the syllabuses for which are the same as those for the inter exam in the fac of sci), and section B of econ and the hist of agric. A student may be exempted from any subj or subjs of section A in which he has passed at advanced level in a G C E exam (or the equivalent in the London inter or a Higher Sch Cert. exam. or other approved exam.) on the following conditions.

(*a*) In the exam; he must offer at least one and not more than three of the subjs of section A A student who would need to offer more than three of those subjs. would be required to spend 2 yrs on the course

(*b*) A student intending to follow the pass course in dairying must normally offer phys whether or not he is eligible for exemption from that subj., he is not, however, required to offer geol

(*c*) A student who has obtained a pass in biol at advanced level in a G.C.E exam. (or its equivalent) will normally be exempted from zool in the exam.

Hons. courses are provided in each of the following subjs agric sci, hortic sci, agric., dairying, agric. bot., hortic. bot, agric chem (either in animal nutrition or in soil sci), agric. econ These courses are normally divided into vrly. parts, pt I *consists of the inter. exam.*, the subjs. of which are phys, chem., bot and zool, save that a student following the hons. course in hortic sci or in agric bot, or in hortic bot. must offer geol. instead of zool Total exemption from the inter. exam may be granted on passes at the advanced level in a G C E exam. in phys., chem, and one of the subjs bot, zool., biol, maths., but all students entering for the hons. course in agric bot or in hortic. bot. or in hortic. sci. would normally be expected to have advanced level passes in phys, chem and bot for total exemption Pts. II, III and IV consist of the course for the hons. subj. which extends over 9 terms Thus a student who obtains total exemption from the inter. exam can complete an hons course in 3 yrs.

(*a*) The subjs which are recognized as qualifying are as follows. Group I Engl. Group II *: *on the higher grade* : maths. ; sci (any 2 of phys , chem., bot., zool.) , addtnl maths. (*i.e* passes at one session in 2 of the 3 papers, dynamics, geom., elem. analysis) A candidate who passes in all 4 branches of sci on the higher grade will be deemed to have passed in 2 subjs on the higher grade *On the ordinary grade* . maths ; phys. , chem. ; bot , zool A pass in sci. on the lower grade (in 1961 or earlier) will be accepted as a pass on the ordinary grade in a group II subj Group

* *Note.*—In 1963 the following subjs. will be added to this group *on the higher grade*, phys , chem and biol. ; *on the ordinary grade*, biol Biol may not be taken (on either grade) with either bot or zool. ; with this proviso a pass in sci. on the higher grade will involve passes in any 2 of the branches phys , chem , biol , bot and zool , obtained at one session of exam A candidate who obtains passes in all 4 of the branches phys., chem., bot and zool. on the higher grade will be deemed to have passed in 2 group II subjs on this grade, but he will not be allowed to count towards his total of such passes both phys. (as a single subj.) and sci , if the latter involves phys. as one branch (and a similar rule will apply *mutatis mutandis* to passes in chem and sci., and biol. and sci.). He will be allowed to count 3 passes in group II only if one of these passes is in maths

III. Latin, Greek, French, German, Italian, Spanish, Gaelic, Hebrew, Russian Group IV. *on the higher grade* hist., geog., music. Group V* *on the higher grade*. art, tech. subjs., phys-with-engin.

Special Provision.—The Scottish Univs. Entrance Bd. recognizes passes at the ordinary level of the General Cert. of Educn. Exam as counting towards attestation in lieu of passes on the ordinary grade of the Scottish Cert of Educn. exam. provided that the subjs are identical.

Note.—The bd has decided to fix the 'credit' and 'very good' standards at 60 per cent and 70 per cent respectively. Passes at these levels obtained at exams. for the Scottish Leaving Cert. prior to 1961 will not be recognized.

(3) Applicants who present General Certs. of Educn issued by any of the examining bodies, 3-10 § (and passes awarded by 11 § in, and after, 1959), showing that passes have been obtained (in subjs recog by the bd)

The one exception is contained in the 2nd option under C below; but this option is open only to those who have the qualifs for matric at a univ. (other than Oxford or Cambridge) located in England or Wales, and have qualified for matric in subjs. recognized by this bd.

C Passes which collectively satisfy the conditions set out under A or B above in all respects other than.

(1) in either A or B, the absence of a pass at the advanced level in a subj of group II or group III, or (2) under B, the absence of a third pass at the advanced level,

may be supplemented by a pass in an appropriate subj. gained *either* (i) at the advanced level in a subsequent G.C.E. exam; *or* (ii) on the higher grade in the Scottish Univs Prelim or Scottish Cert of Educn. exams.

Last Date for Receipt of Applications

II. METHOD OF APPLICATION

The Central Office for University Admissions (*see also* p 890)

1. The univs. have establd a central organization to handle the applicns submitted by candidates for admission to first degree and first diploma courses at participating univs (*see* p 1596). This central office is controlled by a central council (the Universities Central Council on Admissions) representative of all the participating univs. A summary follows of the scheme of operation prepared by the U.C.C.A and accepted by the univs. **The scheme described below applies only to applicants permanently resident in the United Kingdom. Overseas applicants for admission to univs. in the U.K. in Oct. 1963 or Oct. 1964 must continue to apply, as at present, either direct to the univ. in which they are interested, or through their normal channels, whichever is required by that univ.'s regns.; they should not apply through the central office. It is, however, hoped to introduce a scheme in which overseas applicants for admission to U.K. univs. in Oct 1965 will submit their applicns. through the central office at some time between Sept. 1964 and the spring of 1965.**

2. **The scheme, as described below, will come into operation in 1963-64 for candidates entering univs. in Oct. 1964.**

3. **Outline of the scheme (for candidates entering universities in Oct. 1964):**

(*a*) A candidate must obtain prelim. information about entrance requirements, courses of study, etc, either through his school, or direct from any univ to which he * chooses to write, the univ will in turn ask the candidate to obtain an applicn form either from the headmaster or headmistress, or if he has left school, from the central office, and to apply for admission through the central office

(*b*) The central office will receive, between Sept. 1, 1963, and Dec. 31, 1963, applicns for admission in Oct 1964 from students permanently resident in the U K

(*c*) A candidate will be asked on the applicn. form issued by the central office to name up to four univs to which he wishes to apply, he may *either* list these in order of preference, *or* state that he has no preference among them, *or* name the univ. of his first preference and state that he has no preference among the remainder §

(*d*) The central office will make photographic copies of the applicn., which will include a confidential report from the headmaster, headmistress or other referee These will be simultaneously issued to all the univs named in the applicn.

(*e*) Each univ concerned will then deal with the applicn, interview the candidate if so desired and make any further contact with the school which seems necessary.

(*f*) *The univs. named as first and second choice* by the candidate will be asked to inform the candidate through the central office by *March 25 at the latest* of one of the following decisions.

(i) an *unconditional offer*;
(ii) a *qualifying offer*, *i.e.* an offer conditional only upon the candidate's satisfying the

* The scheme of course applies to candidates of both sexes.

§ A candidate will be allowed to change his order of preference, and his change of mind may be reflected in the manner in which he replies to an offer (see 3 (*j*)-(*m*)).

univ 's entrance requirements for the course desired, expressed in terms of no more than a pass in each of the required exam. subjs ;

(iii) a *conditional offer*, *i.e* an offer made subject to the attainment of a specified standard of performance in the General Cert of Educn or other qualifying exam ,

(iv) a *decision to put the candidate on a waiting list* and to defer further consideration until a later date ,

(v) a *rejection*

(*g*) *Univs. named by a candidate as third and fourth choice* will be able to take similar action before or after March 25, but they will be asked to inform the candidate through the central office *not later than May 25*

(*h*) All the univs named by a candidate will be informed by the central office of decisions made by other univs. and by the candidate The forms of reply to be used by candidates are described below

(*j*) A candidate who receives an offer of a place, whether unconditional, qualifying or conditional, may either *firmly accept* it, or *provisionally accept* it, or *decline* it

(i) If he *firmly accepts* it he will be regarded as finally committed to the univ which made the offer , he will therefore be advised by the central office that it may not be in his interests to give a firm acceptance of a *qualifying* or *conditional* offer unless he is confident of his ability to fulfil its conditions, and that if he is not confident he should *provisionally* accept the offer

(ii) If he *provisionally accepts* it, this will normally be taken to imply that he is not yet willing to commit himself exclusively to the univ making the offer, either because he is waiting to hear from a univ. now higher in his list of preferences, or perhaps because he is not certain of his ability to fulfil the conditions of the offer He will be allowed to hold not more than 2 offers which he has provisionally accepted until after the publication of the results of the G C.E. or other qualifying exam., subject to (*k*) below, and to certain other rules.

(iii) If he *declines* the offer he will be entitled to receive any further offers which selectors in other univs may wish to make

(*k*) A candidate who *provisionally accepts* an offer will, when making this decision, be given the opportunity of stating whether or not this is his *preferred offer*. If he names it as such, this will be taken to mean that he is now certain that the univ. making the offer is the univ. of his first choice—whether or not it appeared at the head of his list on his applicn form—and he will be regarded as firmly committed to this univ. provided only that he satisfies the conditions of the offer. But he will still be allowed to hold another offer as an insurance against the possibility that he may not satisfy the conditions of the preferred offer.

(*l*) A candidate need not declare his *preferred* offer until after he has had an opportunity of hearing from all the univs. to which he applied, *i.e* until the end of May : but in June the central office will ask him to name his preferred offer if he has not already done so. If he has by then provisionally accepted only one offer this will automatically become his 'preferred offer'.

(*m*) If a candidate *provisionally accepts* an *unconditional offer from the univ named as his first choice on his applicn form* the univ has the option of withdrawing the offer not more than 14 days after the candidate's decision, since the offer may have been made on the false assumption that the candidate's order of choice remained unchanged Similarly, if, when *having provisionally accepted a qualifying offer from the univ named as his first choice on his applicn form*, he does not name it as his preferred offer, this again will be taken to imply that his original order of preference has now changed, and the univ which made the offer will have the option of withdrawing it not more than 14 days after the candidate's decision

(*n*) Accompanying every qualifying or conditional offer transmitted by the central office will be a letter informing the candidate that, if he firmly or provisionally accepts this offer, both the univ making the offer and the candidate himself thereby undertake specific obligations which must be fulfilled, as follows

(i) If the candidate satisfies the conditions of the offer, the univ. will confirm it , and the candidate must take up the place offered or withdraw altogether provided that a candidate who receives 2 confirmed offers must finally—unless he withdraws altogether —accept that offer which he had previously named as 'preferred'

(ii) If the candidate has not satisfied the conditions of its offer, the univ. may nevertheless confirm the offer, with the same effect as in (i) above

(*o*) A candidate will be informed of the following conditions under which he may hold simultaneously 2 offers made in advance of the publication of the results of the qualifying exams :

(i) Each offer to be retained must have been provisionally accepted.

(ii) One of the 2 offers must, by an agreed date in June, be named by the candidate as his preferred offer

(iii) Whilst a candidate need not declare his preferred offer until after he has had an opportunity of hearing from all the univs. to which he has applied, once he *has* named his preferred offer, he must abide by this choice he may not subsequently decline this offer—unless he wishes to withdraw altogether—nor may he substitute another preferred offer for this one.

(iv) A candidate holding 2 offers may receive a further offer through the central office. He

must then decide which 2 offers he wishes to retain

(*p*) After the publication of the results of the G C E. or other qualifying exam. a univ. (A) will first send through the central office an acceptance to each candidate to whom it has previously made a qualifying or conditional offer and who has either satisfied the terms of this offer, or otherwise proved acceptable. Some of these candidates will already have committed themselves to univ. A by naming it as their preferred offer or by firmly accepting an offer; others will have stated their preference for univ. B and will not go to univ. A unless they have proved unacceptable to B.

(*q*) Univ. selectors will then be asked to send to the central office

(i) information about the number of places available in each course, and

(ii) a list in ranking order of the remaining candidates to whom they would wish to offer places: this list will include more names than the number of places available, since the univ. will not necessarily know how many of the candidates on the ranking list would accept places if offered. The central office will do nothing with these lists until an agreed date by which it will expect to have received all outstanding lists from univs; it will then, without further reference to univs., accept sufficient candidates to fill the places available. Whenever a candidate becomes acceptable at more than one univ. the central office will place him at his preferred univ., and this operation will be completed when all the vacancies notified have been filled or the ranking lists exhausted

(*r*) Finally, provision will be made for a univ. dept. which has an insufficient number of suitably qualified applicants for all its vacancies to receive from the central office details of any applicants still unplaced whose qualifs. appear suitable.

The dept. of French organizes courses from Oct. to June at school-leaving, undergrad. and res levels, and Easter vacation courses for undergrads and sixth-formers. For British students spending a yr. in French schs. as assistants, a short introductory course is organized in the autumn, and a correspondence course during the academic yr. The sch. to-day includes 5 facs. archæol, hist. & letters, archit; painting; sculpture; engraving. The income of the sch. is derived partly from public funds, partly from the commissioners for the exhibition of 1851, and partly from subscriptions and donations from univs., colls, socs and private individuals.

Rome scholps. are offered in classical studies, in mediæval studies, and in each of the 4 facs. of the fine arts. Particulars of these and other scholps attached to the sch. may be obtained from the hon. general sec (*see above*).

The sch. is in no sense a teaching instn., and admission is normally restricted to winners of one of the above scholps. and to grad. students of the univs. and art schs. of the Commonwealth who are qualified to promote the objects of the sch. Accomm. is available for the staff and about 25 students. There is a library of some 35,000 vols. The *Papers of the British Sch. at Rome* provide an annual account of the more important archæol. and hist researches of the sch.

With these ends in view, the sch co-operates with univs, museums and other bodies in the United Kingdom and in other parts of the Commonwealth

The sch is largely residential It admits holders of grad. studentships and travelling fellowships awarded by Commonwealth univs, and other persons who satisfy the managing cttee. that they qualify as students, including those of foreign univs. The academic session is from Nov. 1 to June 30. APPENDIX VII

COMMONWEALTH SCHOLARSHIP AND FELLOWSHIP PLAN

The Commonwealth Scholarship and Fellowship Plan was drawn up at Oxford in July 1959 at the Commonwealth Education Conference, a meeting of official delegates from the various countries convened by the United Kingdom government in accordance with a decision of Commonwealth Ministers at the Trade and Economic Conference held at Montreal in September 1958. The Montreal conference, in stressing the importance of education and training to the development of the different countries, had expressed the hope that they would be able to share with each other the advantages of education of all kinds and at all levels and had envisaged a scheme of 1000 scholarships, of which the United Kingdom undertook to provide one-half and Canada one-quarter. All the Commonwealth countries and most of the dependent territories were represented at the Oxford conference which, in addition to recommending arrangements for Commonwealth co-operation in such matters as technical training and the supply and training of teachers, worked out details of the Commonwealth Scholarship and Fellowship Plan to which effect has been given by decisions of the various governments. The progress of the scheme was reviewed at the second Commonwealth Education Conference held in New Delhi in January 1962. The conference, having surveyed the achievements of the Plan to date, confirmed with minor modifications the basis on which the Plan is being operated.

The Plan aims (as stated in the report of the Oxford conference) at enriching each country of the Commonwealth by enabling an increasing number of its abler citizens to share the wide range of educational resources available throughout the Commonwealth and thus at promoting equality of educational opportunity at the highest level.

In general there are two kinds of awards—*Commonwealth Scholarships* which are normally intended for young graduates of high intellectual promise who may be expected to make a significant contribution to life in their own countries on their return from postgraduate study overseas, but which may be awarded for undergraduate study in cases where facilities for such study are not available in their own country, and *Commonwealth Visiting Fellowships* which are intended for a few senior scholars of established reputation and achievement. The main emphasis is on awards in the academic (including technological) fields but the possibility is not excluded of some awards being made to people outside these fields who play important rôles in the life of their country.

The general basis of the Plan is that each Commonwealth country which is able to do so should institute Commonwealth Scholarships and Fellowships which may be held by men and women from other Commonwealth countries at its universities, colleges and other institutions of higher education. The following countries have instituted scholarships: the United Kingdom, Canada, Australia, New Zealand, India, Pakistan, Ceylon, Malaya, Nigeria, Cyprus, Sierra Leone, Jamaica, East Africa (awards being established jointly by the governments of Kenya, Tanganyika and Uganda), Federation of Rhodesia and Nyasaland, Hong Kong and Malta. Fellowships or awards for senior scholars and education administrators have so far been instituted by the United Kingdom, Australia, New Zealand, India and the Federation of Rhodesia and Nyasaland. Each awarding country (*i.e.* the country in which the award is tenable) is responsible for the administration of its own awards. Local assistance is provided by the nominating country (*i.e.* the country from which nominations are invited) in publicizing awards and inviting applications from which to select nominations.

The value of the awards is determined by each awarding country and is set out in the prospectus of its awards. In general the emoluments include fares to and from the awarding country, payment of tuition fees, allowances for books, special clothing and local travel and a personal maintenance allowance. In some countries a marriage allowance is paid in addition. The normal period of tenure for a Commonwealth Scholarship is two academic years but in certain circumstances this period may be longer or shorter. Scholars are expected to return to their own countries on the completion of the tenure of the award.

The Commonwealth Scholarships offered by Australia—to take as an example the form given to its competition by one awarding country—are tenable at any Australian university and are open to men and women under 35; only Commonwealth citizens and British protected persons are eligible to apply. These awards are offered in other countries and territories on the basis of a series of 'notional quotas'. Other awarding countries have announced similar but not identical

conditions, all of them publish their own notices for circulation in the countries from which applications by candidates are invited. These announcements (with closing dates) will normally be displayed in universities and colleges and (where appropriate) will appear in the local press

The Plan has now become an established feature of the educational life of the Commonwealth. Full details of the operation of the scheme for the year April 1, 1961, to March 31, 1962, are given in the *Second Annual Report (1961–62) on the Commonwealth Scholarship and Fellowship Plan* prepared by the Association of Universities of the British Commonwealth and published by the Commonwealth Education Liaison Committee The report summarizes the activities of each country under the scheme and in a series of tabular appendices analyses the competitions held during the year The Table below shows that 724 awards were actually being held in the various awarding countries in the period covered by the report The report shows that the great majority of awards have been given for postgraduate study, usually for a higher degree The awards are, however, evenly distributed by subject, 175 being held in arts, 135 in social sciences, 153 in pure science and 141 in technology. The remainder are made up of 70 held in medicine, largely tenable in the United Kingdom, two in dentistry, 35 in agriculture and forestry and 13 in veterinary science It is expected that the total number of awards held in the next year will reach the target of 1000, the stated aim of the Oxford conference Competitions for awards tenable in 11 countries have been held during the year, and although there has been a fall in the number of applications submitted as compared with the previous year, many countries have indicated that there has been an increase in the number of well-qualified applicants and a corresponding stiffening of the local competitions for nomination to an awarding country

Candidates for Commonwealth Scholarships offered by whatever awarding country are required to apply through the appropriate scholarship agency in their *country of normal residence*, *i.e.* a student who is already temporarily abroad in another country of the Commonwealth may not apply in that country for an award wherever tenable, but must lodge his application with the agency in the country where he ordinarily lives. It will then be considered in the local competition which is held to select candidates for nomination to the particular awarding country. On the other

hand, a citizen of one Commonwealth country who has established his permanent home in one of the other countries, must, irrespective of his legal citizenship, submit his application in his adopted country and be judged in the competition with the other applicants there.

Each country in the Commonwealth has designated a local agency for the Commonwealth Scholarship and Fellowship Plan to handle (*a*) *the preliminary selection for nomination to* awarding countries and (*b*) the final selection from nominations submitted by nominating countries for its own awards. These agencies also distribute to candidates prospectuses and application forms for the various awards and will, generally speaking, be the best local centres for information about details of the Plan At the beginning of October 1962 the list of agencies in the principal countries and territories with their postal addresses was as follows (in dependent territories not mentioned enquiry should be made at the principal government education office):

APPENDIX VIII

THE ASSOCIATION OF UNIVERSITIES OF THE BRITISH COMMONWEALTH

The Association of Universities of the British Commonwealth is a voluntary society whose members are institutions of university standing in the various countries of the Commonwealth. A list of the 138 institutions in its current membership appears on pp. 1631-1633. The Association is at present a limited company incorporated under the Companies Acts of the United Kingdom.

HISTORY In 1912, on the initiative of the University of London, representatives of 53 universities assembled in London to hold a Congress of Universities of the Empire. One of their main decisions was that a bureau of information for the universities of the Empire should be established and that its affairs should be managed by a committee representing both home and overseas universities. The office of the Universities Bureau of the British Empire was accordingly opened in London in 1913 In 1919, the Bureau was incorporated under licence of the Board of Trade and a grant of £5000 made by H.M government for office premises on condition that the universities of the Empire undertook to provide adequate funds for maintenance.

The 1912 congress also planned that similar meetings should be held at five-yearly intervals. The Bureau (whose name was changed in 1948 to the Association of Universities of the British Commonwealth) has been responsible for organizing these congresses, which were in fact held in 1921, 1926, 1931, 1936, 1948, 1953 and 1958 The eighth Congress of the Universities of the Commonwealth, which was held in Montreal in 1958, and was the first in the series to take place outside the United Kingdom, was attended by 385 delegates, 102 member institutions being represented The next congress, which will mark the jubilee of the Association, will be held in London in July 1963. Since 1948 a number of small conferences of heads of universities (usually comprising the 16-18 members of the executive council of the Association or their deputies) have been held in different parts of the Commonwealth to discuss matters of common interest arising between congresses

The premises at 36 and 37 Gordon Square now housing the headquarters of the A U B C have been leased from the University of London since 1955. In 1961, on the invitation of the U.K government, a Branch Office of the Association was opened in the newly established Commonwealth Centre at Marlborough House, Pall Mall

INCOME AND CONSTITUTION The income of the Association is almost wholly derived from the annual subscriptions (at rates fixed according to their size) of Ordinary Members (universities), Associate Members (university colleges) and Additional Members (other institutions of recognized academic status), and from their contributions for special purposes

The A U B C's affairs are controlled by an executive council elected each year at an annual general meeting of members Each member institution is entitled to be represented at this meeting by its executive head (vice-chancellor, president or principal) or by a personal deputy whom he may appoint. The meeting elects a council of 16 members to represent member universities in the different countries, and a chairman, vice-chairman and honorary treasurer are appointed by the new council. The chairman is the executive head of a member university, and is chosen from the different countries of the Commonwealth in turn, usually with regard to the venue of the principal executive meeting of the Association in the year concerned

AIM The Association works in a variety of practical ways to implement its aim of serving the interests of the universities of the Commonwealth and, in particular, of promoting contact and co-operation between them *In addition to acting* as an agent in London for individual member universities on their direct instructions, *e.g.* in relation to staff appointments, it provides general services such as those of its publications and information department, and makes a secretariat available for various bodies dealing with matters affecting its member institutions, such as the Commonwealth Scholarship Commission, the Marshall Aid Commemoration Commission and the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom

APPOINTMENTS The Association provides an appointments service which gives university teachers and graduates the opportunity of hearing about teaching and research vacancies at universities in Commonwealth countries other than

their own, and of registering their claims to consideration for any particular post Acting for overseas member institutions wishing to invite applications from other countries, the Association has established machinery whereby, as such vacancies occur, they can be regularly announced from London by public advertisement and through circulation to universities in the United Kingdom and other parts of the Commonwealth. In addition it arranges, if requested, for applicants from the United Kingdom or from the continent of Europe to be interviewed in London by independent expert advisory committees, who then report to the university concerned on the suitability of the candidates.

In all these matters the Association acts on behalf of the particular member institution and in accordance with its specific instructions, it does not purport to be an appointments board or graduate placement agency with the general function of finding posts abroad for university teachers or graduates who might individually seek its services

The appointments department, which deals with about 5000 enquiries each year, is one of the two sections of the office now located in the west wing of Marlborough House, where the Commonwealth Centre accommodates various agencies concerned with educational co-operation in the Commonwealth

SCHOLARSHIP SCHEMES Also located at the Branch Office in Marlborough House is the secretariat provided by the Association for the Commonwealth Scholarship Commission in the United Kingdom which is responsible for the administration in the U K of the Commonwealth Scholarship and Fellowship Plan, under which scholarship agencies have been set up in all Commonwealth countries The commission has two main tasks. to select Commonwealth Scholars and Commonwealth Visiting Fellows and place them in universities and colleges in the United Kingdom, and to invite applications from United Kingdom candidates, and make nominations to the appropriate overseas agencies, for awards tenable in other Commonwealth countries About 500 nominations are received annually from overseas countries for the Commonwealth Scholarships offered by the United Kingdom; from these, about 250 candidates are selected, and places found for them, by the commission The commission deals each year with more than 200 U K applications for the scholarships being offered under the Plan by other Commonwealth countries, particulars of which are advertised in the press as well as being circulated to universities and other interested bodies. Detailed analyses of this work are published in the *Annual Reports of the Commonwealth Scholarship Commission in the United Kingdom* (H.M.S.O)

In addition, the A U.B.C. is responsible for gathering from all the participating countries annual statements on their activities under the Plan, and for preparing the comprehensive report of the Plan's work and progress in the Commonwealth as a whole which appears in the *Annual Reports of the Commonwealth Scholarship and Fellowship Plan* published by the Commonwealth Education Liaison Committee

The secretary of the Association also acts as executive secretary of the Marshall Aid Commemoration Commission, which was established by the U K. government to award scholarships tenable at universities in the United Kingdom by selected students from the U S A. Twenty-four Marshall Scholarships are now offered for competition each year, and the services of the Association's office are made available for the task of placing the scholars and for their general supervision during their stay in the United Kingdom.

The Association concerns itself with the administration of other scholarships and grants provided by various bodies to enable students and teachers at its universities to go abroad for further work and study At the request of Harvard University, the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom (*see* p 1622) arranges the annual competition for the Frank Knox Memorial Fellowships tenable at Harvard by U K graduates The Association also participates in the Commonwealth University Interchange Scheme, being represented (with the U K. Committee of Vice-Chancellors and Principals and the Inter-University Council for Higher Education Overseas) on the committee which awards travel grants, administered by the British Council, to university workers making overseas visits within the Commonwealth

PUBLICATIONS AND INFORMATION. From its beginning in 1912 the Association (then the Bureau) has regarded the provision of information on matters relating to universities as one of its major tasks The main way in which the A U B.C.'s information service meets the need for facts about Commonwealth universities is by the production of the *Commonwealth Universities Yearbook* and other publications The *Yearbook*, which in its fortieth (1963) edition will contain 1800 pages, has an international reputation as a work of reference It is issued annually to provide, in a single volume and in a form suitable for quick consultation, the essential facts about Commonwealth universities needed by university teachers and administrators, students and others seeking detailed information about staff, organization, facilities and admission requirements

Among the other publications of the Association are the *Reports of Proceedings of the Quinquennial Congresses of Universities of the Commonwealth*, *Higher Education in the United Kingdom: A Handbook for Students from Overseas and their Advisers*, which is produced every two years jointly with the British Council and contains in its 240 pages a directory to courses of study at universities and other institutions of higher education, together with details of admission

requirements, scholarships, cost of study and residence, etc , *United Kingdom Postgraduate Awards*, a biennial 150-page booklet listing fellowships and scholarships tenable at U.K universities, which was first produced following a recommendation of the 1948 congress that there should be prepared in each Commonwealth country a list of postgraduate awards tenable at its universities by students from overseas. A list of Commonwealth universities and their addresses and the annual *Reports* of the executive council are also available as printed leaflets In addition to the annual *Report of Proceedings of the Conference of the Universities of the United Kingdom*, the A.U B.C has published for the U K. Committee of Vice-Chancellors and Principals special reports such as *Applications for Admission to Universities* (1957) by R K Kelsall, three *Reports* (1958–61) *of an ad hoc Committee on Procedure for Admission of Students* and the *Report of a Sub-Committee on University Entrance Requirements in England and Wales* (1962), together with a *Code of Practice for the protection of persons exposed to Ionizing Radiations in University Laboratories* (1961).

With the co-operation of the registrars of U.K. universities, the Association compiles annually statistical information about the overseas students enrolled at universities in the United Kingdom These statistics are published in leaflet form and appear also as an appendix of the *Yearbook*

The information service receives a great many enquiries of varying kinds from universities, inter-university organizations, inter-governmental organizations, national government departments, industrial firms and members of university teaching staffs, as well as from students seeking information about facilities for study and research In addition to requests for information about universities in Commonwealth countries overseas, these enquiries include many from home sources requiring answers about higher education and universities in Britain itself Although in answering these queries the principal resources available to the staff consist of the material contributed by universities for the *Yearbook* and other publications, this is complemented by the Association's library of current university calendars, prospectuses and gazettes, by a good collection of international reference works on university matters published by other bodies, and by government reports, statistical publications, etc

On questions of academic policy or administration, information which the Association has collected is also available It is, because of the range and variety of its activities, in a position to procure authoritative information on many university problems.

A register is kept of the United Kingdom addresses of academic visitors from overseas, and through the co-operation of the registrars of overseas member institutions the Association is able to issue at regular intervals a list, which is widely circulated in the United Kingdom, of those academic visitors from other parts of the Commonwealth who are either known to be in the United Kingdom or expected to arrive in the near future

U K Committee of Vice-Chancellors and Principals A considerable part of the activity of the Association's office is centred in the work of the Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom This committee was first established in 1918, and the Association provides its secretariat under an arrangement whereby its member universities in the United Kingdom specially subsidize the Association as a centre for certain common academic activities there.

The committee is a consultative and advisory body with no executive powers It considers matters of common interest to universities, and is not restricted to topics specifically referred to it. By its consultative activities and the nature of its membership the committee holds an influential position in university affairs, but its decisions cannot bind the universities. From time to time it sponsors special inquiries, the results of which are published by the Association on its behalf (*see above*) Each year the committee organizes in London a conference of the U K. universities at which topics of current interest are discussed.

International Links The Association acts as a link between the local inter-university organizations in various other countries of the Commonwealth, such as the National Conference of Canadian Universities and Colleges, the Australian Vice-Chancellors' Committee, the New Zealand Vice-Chancellors' Committee, the Inter-University Boards of India and Pakistan, and the Inter-University Council for Higher Education Overseas which is located in Britain. The Association is likewise in regular contact with similar national bodies in Europe and in the U S A , and with Unesco and the International Association of Universities (of which the A.U.B.C. is an associate member). The secretary of the A.U B C. is also the national secretary of the British delegation to the Council of Europe's Committee for Higher Education and Research.

Under an arrangement made with the Association by the French Ministry of National Education, the French university authorities will admit without further examination any candidate whose examination certificates have been attested by the A.U B.C. as satisfying the minimum requirements for admission to a degree course at a British university. The Association is also the issuing authority for U K. university teachers and post-graduate students who wish to carry Council of Europe cultural identity cards while travelling abroad on academic work

This general outline of the practical ways in which the Association works can be supplemented by reference to the detailed annual *Reports* of the executive council

The Association exists as a manifestation of a

wish on the part of the universities of the Commonwealth for co-operation in various aspects of academic activity, but from its beginning the principle was laid down that the institution of a central bureau must not involve any attempt to standardize academic practices, procedures and methods of universities This was confirmed at the 1931 congress when it was resolved that: 'The powers of the Association shall not be exercised in any such way as to restrict the powers and duties exercised by the constituent members under the several charters, statutes, regulations and other instruments of their self-government' The Association's objective as an administrative unit is to act always in the interests of its member institutions, in accordance either with their collective policy or their individual instructions, and to adapt its practice to their requirements in whatever ways may be considered useful and desirable

50 If a poll is demanded by two or more representatives of Members entitled to vote it shall be taken in such manner as the Chairman directs and he shall have power to take the poll at once at the meeting or to adjourn the meeting for a reasonable time not exceeding fourteen days for the purpose of taking such poll, and the result of such poll shall be deemed to be the resolution of the Association in General Meeting. In case of an equality of votes at any General Meeting the Chairman shall be entitled to a second vote or casting vote.

GENERAL INDEX

[*For index to the names of teaching staff and administrative officers, see pp.* 1673-1826]

The General Index contains references to institutions, to subjects of study, and to such topics as Admission, Degrees, Vacation Courses, etc.

In each university entry in the book, only the *first* page on which a subject of study is mentioned is indexed, the several colleges, etc., of a federal university being treated as separate entries. This single reference is usually to a departmental heading, or bracketed subject beside a status, in the staff list, but a further (unindexed) mention of the subject may also be found in such paragraphs as 'First Degrees' or 'Diplomas' in the section of General Information for that university.

Although, under the heading of 'Medicine', a reference is given in the index to each medical school or faculty, subjects which normally form part of the course for a degree in medicine are not indexed separately Such subjects are: anæsthetics, anatomy, bacteriology, dermatology, forensic medicine, gynæcology, obstetrics, ophthalmology, orthopædics, oto-rhino-laryngology, pædiatrics, pathology, physiology, surgery, tuberculosis, venereal diseases.

Similarly, although a reference is given in the index, under the heading of 'Dentistry', to each dental school or faculty, subjects which normally form part of the course for a degree in dentistry are not indexed separately Subjects normally forming part of the course for a degree in veterinary science are treated in the same way

The indexing of subjects which may be studied at all, or almost all, universities is limited to the indexing of references in the several national introductions Such subjects are: biochemistry, biology, botany, chemistry, classics (Greek and Latin), economics (political economy), education, engineering (also civil, electrical and mechanical engineering), English, French, geography, geology, German, history, law, mathematics (also pure and applied mathematics), music, philosophy, physics, politics (political science), psychology, social studies, zoology It should, however, be noted that the less common branches of these subjects (*e.g.*: agricultural chemistry, music, African) are fully indexed in the way described in paragraph two above.
